## **Five students from our school travelled to Italy**

Last January, five students of the I.E.S. Mencia Lopez the Haro school went on a trip from Doña Mencía to Italy. From Doña Mencía up to Madrid they travelled by bus to Madrid-Barajas Airport, where there they would take a flight to Naples (Italy). Once in Naples, they would be waited for by their host families, who hosted our Year 4 students, Pedro Vico, Natalia Rueda, Mencia Perez, Blanca Vera and Enrique Ruiz. In spite of a delay in the flight from Madrid to Naples, they finally arrived there at 19:00pm. Finally, they were taken to the city of Giugliano in Campania, where their host families live.

The families that received our pupils were Mencia Perez's family: The Pastonelli family, who hosted Mencía Pérez. The Gentile

family, who hosted Natalia Rueda. The Pinto family, who hosted Enrique Ruiz. The Panella family, who hosted Pedro Vico and the Santianello family, who hosted Blanca Vera.

While they were staying in Italy, they didn't stop doing activities and travelling. They visited lakes, forests full of birds and plants, a factory of organic apple juice, a mozzarella factory, beehives, they took part in scavenger hunts in the school, they also visited Naples main square, the Castle of the Wolf, the Royal Palace, the port of Naples, to Mount Vesuvius, and a shopping centre.

Further information, news and interviews, on **Erasmus+ Be Healthy, Be Natural, Be Smart** section.

On the left, our students in Italy. On the right, our Year 3 students in front of the Prado Museum.

## **And our Year 3 students travelled to Madrid**

On Wednesday January 13, 43 Year 3 students went on a school trip to Madrid for two days. The trip cost about €60 per person and teachers Ms Soledad Granados, Ms Alicia Ruiz and Mr Manuel Cubero went with them. They arrived in Madrid at 11am and, first, they went to the Royal Palace and then visited some more interesting places in Madrid.

At about 14:30, they had lunch and then, they visited the Prado Museum. After that, they went to Mediodía Hotel to leave their suitcases. At 8 pm, they went to Reina Sofía Museum of modern art, and then, they went to a McDonald's restaurant for dinner.

On Thursday 14, they had breakfast at the hotel and then visited the Congreso de los Diputados (the Spanish Parliament). Later, they visited Santiago Bernabeu Stadium and after that visit, they returned to Doña Mencía, where they arrived at about 8pm.

A curious anecdote about the trip, which both students and teachers have mentioned, was when they met Mr Patxi López, the President of the Parliament. He greeted them warmly and was really kind to them. He even agreed to send the school a free CD with all the photographs of their visit to the Spanish Parliament.

Our students and teachers standing by the President of the Spanish Parliament, Mr Patxi López.

## St. Valentine's Day came

On February 1, Year 4 pupils started distributing the signs and posters with the St. Valentine's Day gifts to start selling them to raise money for their End-of-Year trip.

This year they will sell:

- Minion lollipops = €1.70
- "I Love You" lollipops= €1.50
- Colorful lollipops= €1.20
- Red carnations= €1
- Candy dummies = €1

On February 12, we will hand out all the lollipops and red carnations. We hope that this year we will collect a good amount of money. Since the collected money will be a great help for Year 4 students's trip. At the moment, the most popular gifts are the Minion lollipops and the carnations; the minion lollipop is the most claimed present by the pupils as they have become very popular thanks to the recent film "The Minions" and the "Despicable Me" series. In addition, carnations have always been the most traditional gift.

Thanks for your help!

## More current issues Activites against gender violence

Many students in our school collaborated bringing red pairs of shoes to decorate our school entrance. Red shoes which symbolize the many women's deaths, victims of gender violence al around the world. Later, all the students went to the roundabout on Chartrettes Avenue, where they decorate the big metal bow in the middle of the roundabout with dozens of statements against

gender violence, stuck on red paper shoes.  
Another related activity we did was The deck of cards against gender violence, designed by Edu Barbero. The cards were used by teacher Ms. Alicia Ruiz in Coeducation lessons in order to make students aware of this serious social problem.

## School trip to Priego de Córdoba

On November 30<sup>th</sup>, Year 4 students went on a school trip to Álvarez Cubero school in the town of Priego de Córdoba in order to learn about how debate is used in that school as an educational resource. Teacher Mr Victor Pareja, the teacher who has promoted school debates in the school, hosted our students around the school. The results they have obtained over the last years have been outstanding, their students have improved their

oral skills and their skills to search for information.

In addition, after visiting the school, our students visited La Fuente del Rey, an interesting fountain in the town they couldn't help visiting. The total cost of the activity was €5. This term, we have decided to start debating the same way we learn in that school as a way to improve our skills to talk in public and find information about any topic.

En la foto, el IES Álvarez Cubero de Priego de Córdoba

## Mr Rafael Caballero is back, Ms Fátima Arjona left

Mr. Rafael Caballero, our music teacher is back at school after having suffered from medical problems for over a year. After receiving surgery on several occasions, he has eventually recovered, fortunately. Now he has got back to work.

Nevertheless, his substituting teacher, Ms Mónica Moya, has left the school, so we also feel sorry about it and will miss her a lot despite being with us for some months only, as students

appreciated her so much.

On the other hand, Ms Fátima Arjona, the French and Spanish Language teacher, has taken some time off from work because of her advanced pregnancy. She is expected to give birth in Spring. So we must welcome our new French teacher, Ms. Sheila Martínez, who comes from Seville.

## ERASMUS+, BE HEALTHY, BE NATURAL, BE SMART

By: Pilar Luna, Mencía Pérez, and Irene Priego

# IES Mencía López de Haro visited Italy in January

We interviewed Mencía Pérez, participating student

On the left, Roman ruins in Naples.

On the right, our students and teacher together with their new friends.

Mencía Pérez and her classmates tasting mozzarella cheese.

Our Year 4 classmate and editor, Mencía Pérez, has recently gone on that trip, so she is going to tell us a first person review of her visit to Italy.

### Could you tell us what was the trip like, in a general way?

Italy is a wonderful country, has many things similar to Spain, but simultaneously it is different. First, the trip by bus and the airport were a bit tiring due to the waiting hours without doing anything. On our way to Italy, we were all a little scared due to the fact that we were going to a country that we did not know, with unknown people, alone. But when we got to the airport in Naples and the families were waiting for us anxiously. Then, there came the hour of going away to the houses, we all felt strange but we knew that it was going to be a truly unforgettable experience. In the mornings we went to the school and there we did activities. As time went by, we were relating more, with pupils of the center,

children of other countries, teachers... There, everyone was very nice and very welcoming, we got to know them very quickly. Everyone loved us very much. The days were very entertaining, but the last day, when we knew that everything had finished and that we would never see those people again. That day everything was sad, which was obvious from the look of our faces. But in the end, we were very happy to know those people, to learn about their cultures and new experiences, to know that thanks to technology, we all might be communicated, and, especially, this experience has helped us to be a better person and to learn much more.

### **What was your arrival to the house like?**

Very well, very welcoming. The first day I wasn't very surprised, I was more surprised the second day, unlike my mates.

### **What was living together in the house like?**

Great, the host families were very helpful, affectionate, protective and curious about Spain.

### **What about Italian gastronomy?**

Their gastronomy quite enough, similar to the Spanish one but simultaneously very different. They eat a lot there.

### **What do you think about the people from other countries? With whom have you got on better?**

All people were very nice. To that more we have related it has been with them Italian and Portuguese.

### **Which places have you visited?**

We have visited Naples and some villages as Pozzuoli. We were in the Naples Main Square, in the Royal Palace, the port, the castle of the wolf, etc.

### **Has it helped you to improve your languages?**

Yes, it has, although we usually spoke in Spanish, but we spoke

in English with other students and teachers. They also taught us something in Polish and Turkish language, although Turkish was impossible to speak it for us. Obviously, we have learned something in Italian, too.

### **Which has been your best experience? And the worst?**

My best experience has been making friends meeting new people. I didn't have any really bad experiences, but for me the worst thing was the trip by bus, very tiring.

### **What do you think about the project? In what has the trip to Italy helped you in relation to the project?**

About the project, I think I would change some activities that were a bit boring. To tell you the truth, I have learnt to be a better person, and the experience itself has been more beneficial than some activities, such as, quizzes and presentations, which were a bit boring.

We have also talked to Mr Francisco Javier Muñoz, the teacher who travelled with our students and is the project coordinator. He told us about the project. First of all, the school vegetable garden is going on very well, better than he expected. We haven't had any problems about the students who are working in it and we have already harvested the first lettuces. About hosting the foreign students who are coming in early of April, he informed us that we have finally contacted enough families to host all coming students. Also, he mentioned that teachers were working hard to plan the activity schedule for that week.

## **Interview section**

Autoras: Gloria Arévalo, Andrea Carrasco, Rocío Mesa and Teresa Urbano

### **Teaching staff**

### **Interview to Ms Marisol Granados, our Geography and History teacher.**

In the picture, Ms Marisol with to our young reporters.

Good morning Marisol, we would like ask you some questions.

#### **1.- How long have you worked at the school?**

I have worked in this school for 15 years, since 2001.

#### **2.- What did you study? Where?**

I studied Geography and history and chose history section. In the university of philosophy and letters of Cordoba.

#### **3.- Do you regret becoming a teacher?**

No, I don't. I'm very happy. I'm improving as a person and I'm very satisfied with my job.

#### **4.- How many schools have you worked at?**

I've worked in Huelva for six years and there I was in three schools, four years in Bonares, one year in Huelva city in San

Sebastian's school and another year in Almonte's school. After that, I worked for two years at a night school of Lucena and another year at a night school in Puente Genil. Then, one year in Cabra, two years in Santaella and finally I came to Doña Mencía, where I am at the moment.

**5.- What is your opinion about our school from the educational point of view? From the personal point of view, what do you think about the teachers and students in our school?**

From an educational point of view, there are always many things to improve but... nothing is perfect and it is a school where we feel alright. Teachers work hard and students aren't very difficult. From the personal point of view, I'm very happy about my colleagues and students, although they are sometimes a bit of a headache.

**6.- Do you agree with all the decisions that are being made about the End-of-Year trip?**

The mothers and I make the decisions, and this year we are working together very well, and there are still some decisions to make about the End-of-Year trip, for example, the place where we are going.... I think that now we are well organized with the mothers' help.

**7.- What places are your favourite for the trip?**

In my opinion, I haven't got a favourite place, more or less, accounting for my experience about the last years I don't think we need to go abroad because there are many beautiful places in Spain.

**8.- What would you change in this school?**

I would like to have a more personal relation between the teachers, but due to our timetables, we don't coincide much because each one of us gives his or her lesson and leaves. Logically, for the timetables and the organisation to the school, it happens in all the schools.

**9.- Are you comfortable about the students in the school?**  
Yes, I'm very happy with my students.

**10.- From the personal point of view, what do you think about the new rules in the school about the students leaving the school during the break time?**

I think that the rules are to fulfill them, and if they don't let them to go out is because we are responsible for them for some hours.

**11.- How long have you helped students on their End-of-Year trip? What difficulties do you usually find?**

I've helped to prepare the End-of-Year trip for 4 years. The difficulties I usually find are that the students say "I go" but later they don't go. With the mothers I have got good relationship.

**12.- I would like to go with the students at End-of-Year trip? Do you know some teachers interested in going to the End-of-Year trip?**

No, I think that you should find other teachers. I know a teacher who was interested in the beginning of the school year.

**13.- What do you like the most about being a teacher?**

I like teaching, not only the subjects I teach, but I also like knowing about my students, advising them, telling them about my experiences and life, I see that they begin like a child and finish like an adult.

**14.- If you studied again, would you study the same?**

Yes, I would.

**15.- Have you got any anecdotes?**

I have got many experiences, but the funniest one is when, Andres Pérez's brother, Salvador, was trying to play a joke on me when Paco, the Head Teacher, arrived to tell them off about something that they had done and Salvador had to get out of the cupboard because he couldn't breathe. Then everyone started laughing while the Head Teacher was telling him off.

## Old teachers

### Interview to Ms Almudena González, our old teacher of Spanish language and Literature (School year 2014-2015)

On the pictures, Ms Almudena on two school trips last year.

We contacted, via email, Ms Almudena González, a substituting teacher who taught us Spanish Language and Literature last year.

**1.- What did you study? Where?**

I studied the "Licenciatura de Humanidades" (a Degree in Arts) specialized in Spanish Language and Literature at the University of Huelva.

**2.- Do you regret becoming a teacher?**

No, I don't. My work contributes fifty per cent to my happiness.

**3.- What was your first impression of our school?**

This school is peaceful, organized, calm and everyone got on really well.

**4.- What was your first working day like?**

Great, although similar to a sort of "scavenger hunt".

**5.- What was the relationship with students and teachers at the school?**

It was wonderful, fantastic, rewarding, I'm short of positive words to define it.

**6.- What opinion have you got about this school in comparison to others schools where you've worked?**

My opinion is very favourable, on the one hand, from the professional point of view, because of the communication, and tolerance among all the staff, and on the other hand, from the personal point of view, as I received a lot of affection from students and teacher. In other schools, maybe because they are bigger or because I didn't work long enough there, I couldn't experience that feeling.

**7.-Is there is anything that you miss about this school?**

Joy, and optimism, and positive feedback from both students and teachers.

**8.- Why did you go on the End- of – Year trip to Tenerife with the Year 4 students last year?**

The good behavior in general of the students of Year 4 and mutual understanding with my colleagues, that also went to the trip. It was an only experience and rewarding because the students could enjoy every single moment and specially the island's atmosphere, which I love so much.

# Sports

## Badminton School Leagues

By: Sergio Bonilla and Juan Antonio Gómez.

Two leagues will be organized, one single and another in pairs. The matches will be held at the school gym. The Registration fee is one euro per player; both in pairs and individually. There will be two different categories, 1-2 Year students and 3-4 Year students. Matches will be played during the school break, at 11am. If the match does not end when the bell rings, it will continue during the next break. Registration period will be from 11<sup>th</sup> to 20<sup>th</sup> of January.

Trophies are awarded to the first and second players on each category. School's rackets and shuttlecocks will be given to students, if necessary.

90 players have already signed in and we have already raised €100 to contribute to our End-of -Year trip.

## Male futsal

# Interviews to José Antonio Luna and Pablo Barba, local futsal promises

By: Sergio Gómez and Cristóbal Luna.

According to these two young futsal promises, they had most football training in their hometown, where they played together in the same teams from a young age until they split up at age 16.

Foto: inicios de José Antonio y Pablo, junto a su equipo, durante la educación primaria.

**José Antonio Luna Guijarro** was born in Doña Mencía (Córdoba) on 6<sup>th</sup> February 1998. He has played futsal since he was 7, then, at age 16, he joined Castro del Río Futsal Team. Currently, he plays for Palma Futsal team, in Majorca.

**Pablo Barba Gómez** was born in Doña Mencía (Córdoba) on 21<sup>st</sup> February 1998. He has played futsal since he was 8, at age 16, he joined Castro del Río Futsal team, too. Currently, he plays for El Pozo, Murcia Futsal team.

Photo: José Aº Luna.

Photo: Pablo Barba

**- Can you tell us about your beginnings in futsal?**

J.A: I began in Doña Mencía Sports Club, I played for them from under 10s to cadet categories. Those years were very happy, I sometimes miss them.

P.B: I began playing futsal at the age of 8, in Doña Mencía Sports Club, too, from under 10s to cadet categories, too.

**- Do you remember any trophies you won with Doña Mencía Sports Club?**

J.A: I won several competitions those years, such as Andalusia Championship, the Cup, etc. The most important season was in under 11s, when we won the Andalusia Championship, the Provincial Cup and we got to the group stage in Spain's Championship.

P.B: We won most trophies in the local club, we have won four Leagues, one Andalusia Championship and two Provincial Cups.

**- Can you tell us about your experiences in the Cordoba and Andalusia teams?**

J.A: Indeed, I have competed with the Córdoba team, Andalusia team, with whom we were Spain's champions in Barcelona, and I have recently been called to play a match against several teams for Spain's national team in Latvia.

P.B: to tell the truth, it's been the best experiences I have lived in this sport. I won trophies for 6 years on a row.

**- How old were you when you left your team mates in your first team, CDM?**

J.A: I was 16, when I joined the Castro del Río futsal team.

P.B: At age 16, Ateguá F C became interested in me, so I

started playing for them.

**- Are you satisfied in your current futsal clubs?**

J.A: I'm really happy to be here in Majorca, everything goes on really well and I've had the chance to debut on the First Division, the King's Cup and Spain's Cup. I'm quite satisfied about my work in this club and really thankful to them because of the trust they set on me.

P.B: I can't complain about anything so far, everyone is very welcoming and I feel quite comfortable. I have had the chance to debut in the Second Division.

**- Where do you see yourselves in the future from the futsal's point of view?**

J.A: Honestly, I don't think too much about my future, as I just want to enjoy this great experience. I know that with great effort and hard work I can get far in this sport.

P.B: I've never wanted to know what the future has in store, as everything will depend on my effort and to get as far as possible.

**- Finally, which has been your best experience so far?**

J.A: I will always remember the day we became champions of Andalusia in 2010, together with my mates and friends. I will always remember all the trips we went on and the great moments we lived together.

P.B: It's difficult to chose a single moment, but I remember very happily the day I was called to play with the Spanish National Team. From that day on, more important clubs began to become interested in me.

Photo: José Aº Luna together with his team, Palma Futsal.

Photo: Pablo Barba together with his team El Pozo, Murcia.

## **Women's futsal**

### **Interview to Verónica Garrido Rubio**

By: Miguel Ángel Espejo and Manuel Jesús Jiménez.

Photo: Verónica's life has always been bound to futsal.

She is a futsal player. She lives in Doña Mencía (Córdoba). She was born in Cabra (17 of september 2000) she lived in Baena (Córdoba), when she was nine years old, she moved to Doña Mencía (Córdoba ) and there she began to play Federated futsal, But she didn't finish the season because her age didn't allow her to play all Competitions. Two years later, she played one season of mixed 11-a-side football and when she finished that season she returned to futsal in which she has played for two years.

#### **1. How old were you when you began playing futsal?**

I started with ten years to play futsal, but I have been playing since I was a child in the street, at the school and with my friends.

#### **2. What do you mean the futsal for you?**

Sincerely, I can't explain with words, it's EVERYTHING for me.

#### **3. With do you think are the most important values that should be a great futsal player?**

Respect, companionship, keeping fit, clearly, winning, but the aim is having fun and you must always know when you have to be kidding and when you have to be serious.

#### **4. What have been your best and worst moments as a professional of futsal?**

The worst moment was when I had a hamstring injury in the quadriceps that lasted six months because I did not keep the time

required for it to heal well and the best was when I was chosen to the Cordoba Province team.

#### **5. How about the season that you are making this year?**

We are doing well, but we could do better.

#### **6. What is the biggest problem of women's futsal in comparison to male?**

Women's futsal isn't as recognized as male futsal.

#### **7. What futsal teams do you like?**

El Pozo, Murcia and Jaén Paraíso Interior FS.

#### **8. As a player, what are you best at and what do you have to improve?**

What I do the best is playing in a team and what I must improve is defending.

#### **9. What is your aim in futsal?**

Getting as far as possible.

#### **10. Have you been selected for a selection team? How does it feel when the coach contacted you?**

Yes, I have, for the Cordoba Province team 14/15 and this year, for now, to train with the Cordoba team and the Andalusia team.

## **Women's Taekwondo Interview to Clara Campos Borrallo**

Photo: Clara Campos Borrallo

Clara Campos is a local former Taekwondo champion when she was in her teens. Currently, she works as a physiotherapist.

**1. How old were you when you started doing this sport?**  
When I was 14, in the Children's Category.

**2. What injuries have you had throughout your career?**  
I had minor sprains but nothing important.

**3. Which trophies have you won throughout your career?**  
Spain and Andalusia Championships on my first-year as a cadet and one European championship on my second year as a cadet.

**4. How did you get to know about Taekwondo at first?**  
Thanks to Egabrense Taekwondo Club, in Cabra.

**5. How long did you do this sport?**  
For 5 years.

**6. Why did you stop doing Taekwondo?**  
Because I had to study and go to university.

**7. Do you think that Taekwondo is an aggressive sport?**  
No, I don't. Taekwondo means discipline, where everyone respects its rules.

## **The weather Forecast for next Easter week in Doña Mencía**
