CARTERPILLAR
Organization: The class is divided into two groups. Each group makes a line. Each student takes the right foot of the student in front of him/her with his/her right hand.
Challenge: Without letting go, the entire group must cross the playing area. If the centipede breaks, the group has to return to the starting line and begin again.
THE SOLDIERS
Organization: The class is divided into two groups. Each group makes a line and puts their arms on the shoulders of the students next to him/her. The students’ feet should touch.

Challenge: On the teacher's signal each team must move from the starting line to the finish line. The players' feet must be touching at all times. If two players’ feet separate, the group has to return to the starting line and begin again.

Lidia Prieto y Pablo Peralta
JUNK YARD TIRES
Organization: The class is divided into two groups. Each group is given five tires.

Challenge: The group must move from the starting line to the finish line without touching the ground.
TRIANA BRIDGE
Organization: Two benches are placed in the gym with mats next to them for protection. The class is divided into two groups. One student stands on each end of the benches.

Challenge: The students must cross the bench without falling. To make the activity more difficult, increase the number of students that must cross the bench each time.
THE FERRIS WHEEL

Organization: The class is divided into two groups. The teacher tells one group to link arms and make a circle looking outward. The other group stands inside the circle but does not hold hands.

Challenge: On the teacher’s signal the two groups must move from one place to another without separating their arms. If two players separate their arms the group has to return to the starting line and begin again. To make the activity more difficult the Ferris wheel must turn clockwise while moving.
