

Metrika

Volume 76 (3)

International Journal
for Theoretical and Applied Statistics

Editorial

N. Henze. U. Kamps 301

Two kinds of variance/covariance estimates in linear mixed models
Z.Li. 303

D-optimal two-level orthogonal arrays for estimating main effects and some specified
two-factor interactions
B.Tang. J. Zhou 325

Universally optimal balanced chageover designs with first residuals
VK. Sharma 339

An extremal property of the generalized arcsine distribution
K.M.Schimist- A. Zhigljavsky 347

Density estimates of low bias
C.S. Withers – S.Nadarajah 357

The higher order likelihood method for the common mean of several log-normal distributions
S.H. Lin 381

D-optimal chemical balance weighing designs with autoregressive errors
K.Katulaska- L. Smaga 393

Estimation of order-restricted means of two normal populations under the LINEX loss function
T.Ma- S. Liu 409

Estimation of the scale parameter of a log-logistic distribution
G.Lesitha – P. Yageen Thomas 427
