

# TECHNOMETRICS

Volume 56, Number 1, February 2014

<b>Screening Strategies in the Presence of Interactions</b>		<b>Asymmetric Nested Lattice Samples</b>	
Danel Draguljić, David C. Woods, Angela M. Dean, Susan M. Lewis, and Anna-Jane E. Vine	1	Peter Z. G. Qian, Mingyao Ai, Youngdeok Hwang, and Heng Su	46
<b>Comment: Toward Guidelines for Practitioners on Screening Designs and Analysis</b>		<b>Parametric Estimation for Window Censored Recurrence Data</b>	
Christine M. Anderson-Cook and Michael S. Hamada	16	Yada Zhu, Emmanuel Yashchin, and J. R. M. Hosking	55
<b>Comment: Simulation Used to Solve Tough Practical Problems</b>		<b>A Functional Time Warping Approach to Modeling and Monitoring Truncated Degradation Signals</b>	
William A. Brenneman	19	Rensheng R. Zhou, Nicoleta Serban, Nagi Gebraeel, and Hans-Georg Müller	67
<b>Comment: Model Selection With Strong and Weak Heredity Constraints</b>		<b>Physical Model-Assisted Probability of Detection of Flaws in Titanium Forgings Using Ultrasonic Nondestructive Evaluation</b>	
William Li and Ji Zhu	21	Ming Li, William Q. Meeker, and R. Bruce Thompson	78
<b>Comment: Need for Guidelines on Appropriate Screening Designs for Practitioners</b>		<b>Robust Estimators of the Generalized Log-Gamma Distribution</b>	
Philip R. Scinto, Robert G. Wilkinson, Zhen Wang, and Andrew Rose	23	Claudio Agostinelli, Alfio Marazzi, and Victor J. Yohai	92
<b>Rejoinder</b>		<b>Robust Constrained Clustering in Presence of Entry-Wise Outliers</b>	
David C. Woods, Susan M. Lewis, Angela M. Dean, and Danel Draguljić	25	Alessio Farcomeni	102
<b>Applying Control Chart Methods to Enhance Data Quality</b>		<b>The Cluster Elastic Net for High-Dimensional Regression With Unknown Variable Grouping</b>	
L. Allison Jones-Farmer, Jeremy D. Ezell, and Benjamin T. Hazen	29	Daniela M. Witten, Ali Shojaie, and Fan Zhang	112
<b>A Note on Dominating Fractional Factorial Two-Level Designs With Clear Two-Factor Interactions</b>		<b>Book Reviews</b>	123
Ulrike Grömping	42
