

ORIGINAL PAPERS

- 549** **Estimating the upcrossing index**
J.R. Sebastião – A.P. Martins – H. Ferreira – L. Pereira
- 580** **U-test for variance components in linear mixed models**
J.S. Nobre – J.M. Singer – P.K. Sen
- 606** **Extremes of multivariate ARMAX processes**
M. Ferreira – H. Ferreira
- 628** **Eliciting Dirichlet and Connor-Mosimann prior distributions for multinomial**
F.G. Elfaday – P.H. Garthwaite
- 647** **A direct approach to risk approximation for vast portfolios under gross-exposure
constraint using high-frequency data**
X.-B. Kong
- 670** **Two-stage benchmarking as applied to small area estimation**
M. Ghosh – R.C. Steorts
- 688** **Empirical copulas for consecutive survival data – Copulas in survival analysis**
E. Strzalkowska-Kominiak – W. Stute
- 715** **Distribution theory of δ -record values. Case $\delta \leq 0$**
F. López-Blázquez – B. Salamanca-Miño
