

**TEST : an official journal of the Spanish Society of Statistics and  
Operations Research**  
**Volume 31, number 1 (march 2022)**

- Testing the equality of a large number of populations** P. 1 - 21  
M. D. Jiménez-Gamero ; M. Cousido-Rocha ; F. Jiménez-Jiménez
- Robust clustering of multiply censored data via mixtures of  $t$  factor  
analyzers** P. 22 - 53  
Wan-Lun Wang ; Tsung-I Lin
- MM for penalized estimation** P. 54 - 75  
Zhu Wang
- Goodness-of-fit test with a robustness feature** P. 76 - 100  
Jiming Jiang ; Mahmoud Torabi
- Bayesian semiparametric modeling of response mechanism for  
nonignorable missing data** P. 101 - 117  
Shonosuke Sugawara ; Kosuke Morikawa ; Keisuke Takahata
- Robust parametric inference for finite Markov chains** P. 118 - 147  
Abhik Ghosh
- Where to find needles in a haystack?** P. 148 - 174  
Zhigen Zhao
- Spatial Cox processes in an infinite-dimensional framework** P. 175 - 203  
María P. Frías ; Antoni Torres-Signes ; Jorge Mateu
- A measurement error Rao–Yu model for regional prevalence estimation  
over time using uncertain data obtained from dependent survey estimates** P. 204 - 234  
Jan Pablo Burgard ; Joscha Krause ; Domingo Morales
- A new inferential approach for response-adaptive clinical trials: the  
variance-stabilized bootstrap** P. 235 - 254  
Alessandro Baldi Antognini ; Marco Novelli ; Maroussa Zagoraiou

**Sparse Laplacian Shrinkage with the Graphical Lasso Estimator for Regression Problems** P. 255 - 277  
Siwei Xia ; Yuehan Yang ; Hu Yang

**Bayesian and frequentist evidence in one-sided hypothesis testing** P. 278 - 297  
Elías Moreno ; Carmen Martínez
