

INVITED PAPERS

- 207 **A variational approach of the rank function**
J.-B. Hiriart-Urruty · H.Y. Le
- 241 **Multicriteria decision systems for financial problems**
C. Zopounidis · M. Doumpos

DISCUSSIONS

- 262 B. Aouni (comment)
- 265 K. Andriosopoulos (comment)
- 268 S. Greco · B. Matarazzo · R. Słowiński (comment)
- 275 D. Pla-Santamaria · A. Garcia-Bernabeu (comment)
- 279 R.E. Steuer (comment)
- 282 C. Zopounidis · M. Doumpos (rejoinder)

ORIGINAL PAPERS

- 287 **Best proximity points of non-self mappings**
A. Abkar · M. Gabeleh
- 296 **Metaheuristic algorithms hybridised with variable neighbourhood search for solving the response time variability problem**
A. Corominas · A. García-Villoria · R. Pastor
- 313 **Stable sets and max-convex decompositions of TU games**
F. Llerena · C. Rafels
- 323 **Continuous location of an assembly station**
E. Plastria · M. Elosmani
- 341 **On the hybrid projection method for fixed point and equilibrium problems**
X. Qin · S.Y. Cho · S.M. Kang · F. Gu
- 355 **Using and extending fix-and-relax to solve maritime inventory routing problems**
K.T. Uggen · M. Fodstad · V.S. Nørstebo
- 378 **Convex analytic approach to constrained discounted Markov decision processes with non-constant discount factors**
Y. Zhang
