

HOW SCIENCE GOES WRONG.

On the cover
Scientific research has changed the world. Now it needs to change itself: leader, page 11. Scientists like to think of science as self-correcting. To an alarming degree, it is not, pages 21-24

The Economist online

Daily analysis and opinion from our 21 blogs, plus audio and video content, debates and a daily chart Economist.com/blogs

E-mail: newsletters and mobile edition Economist.com/email

Print edition: available online by 7pm London time each Thursday Economist.com/print

Audio edition: available online to download each Friday Economist.com/audioedition

Volume 409 Number 8858

Published since September 1843 to take part in "a severe contest between intelligence, which presses forward, and an unworthy, timid ignorance obstructing our progress."

Editorial offices in London and also: Atlanta, Beijing, Berlin, Brussels, Cairo, Chicago, Hong Kong, Johannesburg, Los Angeles, Mexico City, Moscow, New Delhi, New York, Paris, San Francisco, São Paulo, Singapore, Tokyo, Washington DC

8 The world this week

- Obituary**
- 86 **Norman John Gillies**
The voice of St Kilda

Next week
We publish a special report on the Koreas. The 38th parallel, separating north and south, is Korea's most important dividing line. But it is only one of many, says Simon Cox
