

On the cover
Shadow banks helped cause the financial crisis. Better regulated, they could help avert the next one: leader, page 7. As banks retreat in the wake of the financial crisis, other outfits are taking on a growing share of their business: see our special report after page 42. Every time regulators in China curb one form of non-bank lending, another begins to grow, page 61

The Economist online

Daily analysis and opinion from our 19 blogs, plus audio and video content, debates and a daily chart Economist.com/blogs

Towers and powers

42 Chikungunya fever
On the move

Special report:
International banking
Shadow and substance
After page 42

Thailand Long in crisis, the country is close to the brink: leader, page 8. A court ousts the prime minister, Yingluck Shinawatra, page 43. Across Asia, judges are having too much say in politics: Banyan, page 47

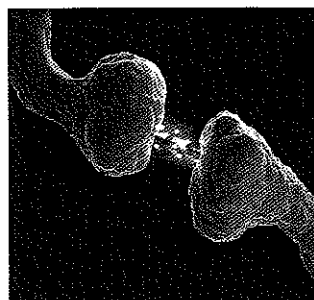

Putin's U-turn A shift by Russia, but no reason for the West to lessen the pressure on it: leader, page 8. The domestic concerns in Moscow, page 19. Fighting in eastern Ukraine may have taken on a life of its own, page 20. Germany's ambivalence towards Russia reflects its conflicted identity, page 24. How the world would look if Mr Putin were a cartographer, page 52

The new green revolution Technological breakthroughs in rice will boost harvests and cut poverty. They deserve support: leader, page 10. Something is stirring in the paddy fields of Asia, pages 16-18

Pfizer and AstraZeneca
A British takeover battle has lessons for America and France: leader, page 9. The future of the pharmaceutical industry depends on more than a merger, page 27

Intelligence gene A new study has identified a genetic variant that unexpectedly boosts brain power—with an effect that seems far bigger than any single gene influence on IQ found so far, page 67

Alibaba China's e-commerce giant has just unveiled details of its long-awaited flotation in America. It will be a blockbuster, page 53

Asia
