

On the cover
 A new technology for editing the human genome ought to be welcomed: leader, page 11. It is now easy to manipulate the DNA of plants, animals and humans, pages 18-21. Giving genes the power to edit themselves is an intriguing, and worrying, possibility, page 20

The rise of Jeremy Corbyn
 A victory for the hard-left candidate would be bad for Labour—and also for the Tories and Britain: leader, page 12. He will probably win—but then run into trouble, page 27. In America vast crowds turning out for Bernie Sanders are not all they seem: Lexington, page 37

Russia's economy A journey from the capital to the hinterland shows how grim life has become, and how Russians cope, page 22

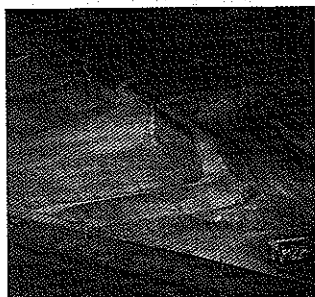

Slavery Islamic State's revival of slavery, extreme though it is, finds disquieting echoes across the Arab world, page 47. The jihadists murder the man who tended Palmyra's art for 50 years, page 31
