

QCAS Contents

Volume: 53 November-December 2008 Number 6

100: STATISTICAL PROCESS CONTROL

Multivariate statistical process control based on principal component analysis (MSPC-PCA): Some reflections and a case study in an auto body assembly process, *Alberto Ferrer* 110:Y 543

Modified Shewhart charts for high yield processes, *Tee Chin Chang and Fah Fatt Gan* 110:Y 545

An NP control chart using double inspections, *Zhang Wu and Qinan Wang* 112:Y 547

A two-stage cumulative quantity control chart for monitoring Poisson processes, *Ling-Yua Chan, Jintao Ouyang and Henry Ying-Kei Lau* 119:Y 549

Assessing process capability based on the lower confidence bound of C_{pk} for asymmetric tolerances, *Y. C. Chang and Chien-Wei Wu* 120:Y 551

Statistical monitoring of a sealing process by means of multivariate accelerometer data, *Bert Ostyn, Paul Darius, Josse De Baedemaeker and Bart De Ketelaere* 130:M 555

Understanding behavioral sources of process variation following enterprise system deployment, *Elliot Bendoly and Mark J. Cotteleer* 130:Y 557

200: SAMPLING PRINCIPLES AND PLANS

Probability based estimation theory for respondent driven sampling, *Erik Volz and Douglas D. Heckathorn* 210:Y 559

Theoretical measures of relative performance of classifiers for high dimensional data with small sample sizes, *Peter Hall, Yvonne Pittelkow and Malay Ghosh* 210:Y 561

300: QUALITY MANAGEMENT

Map Quest: Raytheon's catalyst technique finds power in organizational networks, <i>Tracy Cox</i>	314:Y	563
A launch to quality, <i>Tracy Widner and Mitch Gallant</i>	314:Z	565
An overview of the Shainin System™ for quality improvement, <i>Stefan H. Steiner and R. Jock MacKay</i>	319:Y	567
An exploration of how the employee-organization relationship affects the linkage between perception of developmental human resource practices and employee outcomes, <i>Bard Kuvaas</i>	333:A	571
Sharpen your auditing skills, <i>Joe Kausek</i>	341:A	573
The great debate: Can one process approach apply to QMS and EMS audits? <i>Terry A. Mors</i>	341:A	575
QMS certification: Down with disillusionment, <i>Girdhar J. Gyani</i>	342:Y	577
Supplier's involvement and success of radical new product development in new ventures, <i>Michael Song and C. Anthony Di Benedetto</i>	350:Y	579

400: CASE STUDIES IN QUALITY

Quality control of wastewater treatment: A new approach, <i>Elena Aizenchtadt, Dov Ingman and Eran Friedler</i>	430:S	581
It all ties together: CSX team's project curtails fuel consumption, saves company millions, <i>Nicole Adrian</i>	430:Y	583

500: EXPERIMENTATION AND CORRELATION

Data conformance testing by digital analysis – A critical review and an approach to more appropriate testing, <i>Rainer Gob</i>	510:Y	585
An efficient sequential optimization approach based on the multivariate expected improvement criterion, <i>Nadine Henkenjohann and Joachim Kunert</i>	519:Y	587
A two-stage procedure for comparing hazard rate functions, <i>Peihua Qiu and Jun Sheng</i>	519:Y	589

500: EXPERIMENTATION AND CORRELATION (continued)

-  Optimal designs for conjoint experiments, *Roselinde Kessels, Peter Goos and Martina Vandebroek* 520:Y 591
-  Projection density estimation under an m -sample semiparametric model, *Jean-Baptiste Aubin and Samuela Leoni-Aubin* 540:Y 595
-  Split-plot experiments with unusual numbers of subplot runs, *Murat Kulahci* 549:Y 597
- Some simple nonparametric methods to test for perfect ranking in ranked set sampling, *T. Li and N. Balakrishnan* 551:Y 599

600: APPLICATIONS

-  Determinants of customer-perceived service quality in fast-food restaurants and their relationship to customer satisfaction and behavioral intentions, *Hong Qin and Victor R. Prybutok* 670:S 601
-  Bayesian forecasting of an inhomogeneous Poisson process with applications to call center data, *Jonathan Weinberg, Lawrence D. Brown and Jonathan R. Stroud* 670:Y 603
-  Conditions that shape the learning curve: Factors that increase the ability and opportunity to learn, *Eelke Wiersma* 680:A 605
- Using qualitative data to learn about customer needs: Understanding employer desires when designing an MBA program, *Steven Hillmer and Canan Kocabasoglu* 680:T 607

700: ANALYTICAL PROCESS CONTROL

-  Manufacturing vaccines: An illustration of using PAT tools for controlling the cultivation of *Bordetella pertussis*, *Eric N. M. van Sprang, Henk-Jan Ramaker, Mathieu Streefland, Leo A. Van der Pol E. Coen Beuvery and Age. K. Smilde* 700:B 609

800: RELIABILITY

-  Better safe than sorry: Look inward, not just overseas, to prevent product safety mishaps, *Randall L. Goodden* 810:Y 611

800: RELIABILITY (continued)

K'NEX success: Reliability in supply chain helps toymaker thrive while spate of recalls plays out, <i>Brett Krzykowski</i>	810:Y	613	
Importance functions for RESTART simulation of highly-dependable systems, <i>Jose Villen-Altamirano</i>	810:Y	615	
MUT of a one out two system with preventive maintenance, <i>Christiane Coccozza-Thivent</i>	820:Y	617	
Optimal maintenance service contract negotiation with aging equipment, <i>Canek Jackson and Rodrigo Pascual</i>	840:M	621	
An empirical, path-oriented approach to software analysis and testing, <i>Branson W. Murrill</i>	850:Y	625	
Software reliability prediction by soft computing techniques, <i>N. Raj Kiran and V. Ravi</i>	850:Y	627	
Ranking reusability of software components using coupling metrics, <i>Gui Gui and Paul D. Scott</i>	850:Z	629
