International Journal  
for Theoretical and Applied Statistics

Volume 67 (3)  
2008

Yu J-W, Tian G-L, Tang M-L	Two new models for survey sampling with sensitive characteristic: design and analysis	251
Hančová M	Natural estimation of variances in a general finite discrete spectrum linear regression model	265
Navarro J, Hernandez PJ	Mean residual life functions of finite mixtures, order statistics and coherent systems	277
Eryılmaz S, Stepanov A	Runs in an ordered sequence of random variables	299
Shin DW, Lee O	Unit root tests for panel MTAR model with cross-sectionally dependent error	315
Nagaraja HN, Abo-Eleneen ZA	Fisher information in order statistics and their concomitants in bivariate censored samples	327
Giovagnoli A, Marzialetti J, Wynn HP	A new approach to inter-rater agreement through stochastic orderings: the discrete case	349
Choudhury A, Borthakur AC	Bayesian inference and prediction in the single server Markovian queue	371
