International Journal
for Theoretical and Applied Statistics

Volume 68 (1)
2008

Antoch J, Hušková M, Janic A, Ledwina T Chen H, Hu T	Data driven rank test for the change point problem	1
Sanhueza A, Leiva V, Balakrishnan N Yanev GP, Ahsanullah M, Beg MI	Multivariate likelihood ratio orderings between spacings of heterogeneous exponential random variables	17
Hsu B.-M, Wu C.-W, Shu M.-H	A new class of inverse Gaussian type distributions	31
Liang J, Ng KW	Characterizations of probability distributions via bivariate regression of record values	51
Koukouvinos C, Mantas P, Mylona K	Generalized confidence intervals for the process capability index C_{pm}	65
Muñoz-Pichardo JM, Moreno-Rebollo JL, Enguix-González A, Pascual-Acosta A	A method for generating uniformly scattered points on the L_p -norm unit sphere and its applications	83
	A general construction of $E(s^2)$ -optimal large supersaturated designs	99
	Influence measures on profile analysis with elliptical data through Fréchet's metric	111
