International Journal
for Theoretical and Applied Statistics

Volume 68 (2)
2008

Xu W-L, Zhu L-X	Goodness-of-fit testing for varying-coefficient models	129
Chaudhuri A, Pal S	Estimating sensitive proportions from Warner's randomized responses in alternative ways restricting to only distinct units sampled	147
Synówka-Bejenka E, Zontek S	A characterization of admissible linear estimators of fixed and random effects in linear models	157
Gupta RC, Tajdari M, Bresinsky H Georgiou SD	Some general results for moments in bivariate distributions	173
	On the construction of $E(s^2)$ -optimal supersaturated designs	189
Nadarajah S, Gupta AK	A product Pareto distribution	199
Goliforushani S, Asadi M	On the discrete mean past lifetime	209
Seshadri V, Wesołowski J	More on connections between Wishart and matrix GIG distributions	219
Balakrishnan N, Dembińska A, Stepanov A	Precedence-type tests based on record values	233
