International Journal  
for Theoretical and Applied Statistics

Volume 68 (3)  
2008

Santos JA, Neves MM	A local maximum likelihood estimator for Poisson regression	257
Kumar S, Tripathi YM	Estimating a restricted normal mean	271
Hashorva E	A new family of bivariate max-infinitely divisible distributions	289
Liang H-Y, Baek J-I	Berry-Esseen bounds for density estimates under NA assumption	305
Cai G-h	Strong laws for weighted sums of NA random variables	323
Sankaran PG, Gleeja VL	Proportional reversed hazard and frailty models	333
Uddin N	Optimality and efficiency of small chessboard designs for correlated errors	343
Nordman DJ	An empirical likelihood method for spatial regression	351
Lee S, Lee T	Robust estimation for the order of finite mixture models	365
