CONTENTS

Articles

Likelihood Ratio Tests for Special Rasch Models 611
David J. Hessen

Measuring the Strength of Teachers' Unions: An Empirical Application of
the Partial Independence Item Response Approach 629
Katharine O. Strunk and Sean F. Reardon

IRT–ZIP Modeling for Multivariate Zero-Inflated Count Data 671
Lijuan Wang

Bayesian Estimation of the Logistic Positive Exponent IRT Model 693
Heleno Bolfarine and Jorge Luis Bazan

Sample Size for Confidence Interval of Covariate-Adjusted Mean
Difference 714
Xiaofeng Steven Liu

A Comparison of Strategies for Estimating Conditional DIF 726
Tim Moses, Jing Miao, and Neil J. Dorans

Prevalence and Magnitude of Paradoxical Results in Multidimensional
Item Response Theory 744
Matthew D. Finkelman, Giles Hooker, and Zhen Wang

Confidence Intervals for True Scores Using the Skew-Normal Distribution 762
Miguel A. García-Pérez

Book Review

A Review of *Design of Observational Studies* 774
Elizabeth A. Stuart
