

JOURNAL OF APPLIED STATISTICS

Volume 37 Numbers 5–6 May–June 2010

CONTENTS

- Search boundaries of the truncated discrete sequential test
Y.H. Michlin and G. Grabarnik 707
- Latent class piecewise linear trajectory modeling for short-term cognition responses after chemotherapy for breast cancer patients
M.I. Rolfe, K. Mengersen, G. Beadle, K. Vearncombe, B. Andrew, H.L. Johnson and C. Walsh 725
- Lag order selection for an optimal autoregressive covariance matrix estimator
Marco Morales 739
- Extension of model-based classification for binary data when training and test populations differ
J. Jacques and C. Biernacki 749
- A permutation test for multivariate data with grouped components
Hyo-Il Park and Seung-Man Hong 767
- A statistical algorithm for detecting cognitive plateaus in Alzheimer's disease
Hyongjin An, Roderick J.A. Little and Andrea Bozoki 779
- GMM in linear regression for longitudinal data with multiple covariates measured with error
Zhiguo Xiao, Jun Shao and Mari Palta 791
- Robust regression for estimating the Burr XII parameters with outliers
Fu-Kwun Wang and Yung-Fu Cheng 807
- Competing risks, left truncation and late entry effect in A-bomb survivors cohort
J. Anzures-Cabrera and J.L. Hutton 821
- Flexible estimation of serial correlation in nonlinear mixed models
Jan Serroyen, Geert Molenberghs, Marc Aerts, Ellen Vloeberghs, Peter Paul De Deyn and Geert Verbeke 833

(Contents continued on inside back cover)

0266-4763(2010)37:5/6;1-R

Time-varying autoregressive conditional duration model <i>Adriana B. Bortoluzzo, Pedro A. Morettin and Clelia M.C. Tolo</i>	847
Longitudinal Poisson modeling: an application for CD4 counting in HIV-infected patients <i>Emílio Augusto Coelho-Barros, Jorge Alberto Achcar and Josmar Mazucheli</i>	865
Baseball players with the initial "K" do not strike out more often <i>B.D. McCullough and Thomas P. McWilliams</i>	881
Analysis and modeling of wind speed in New York <i>Jūratė Šaltytė Benth and Fred Espen Benth</i>	893
Bias from the use of generalized estimating equations to analyze incomplete longitudinal binary data <i>Andrew J. Copas and Shaun R. Seaman</i>	911
Multiple linear regression model with stochastic design variables <i>M. Qamarul Islam and Moti L. Tiku</i>	923
Bayesian and DEA efficiency modeling: an application to hospital foodservice operations <i>K.M. Matawie and A. Assaf</i>	945
Non-normality and combined double sampling and variable sampling interval \bar{X} control charts <i>Chau-Chen Torg, Chun-Chieh Tseng and Pei-Hsi Lee</i>	955
On the bivariate negative binomial regression model <i>Felix Famoye</i>	969
How to compare interpretatively different models for the conditional variance function <i>Ilmari Juutilainen and Juha Rönning</i>	983
On improvement in estimating population mean in stratified random sampling <i>Nursel Koyuncu and Cem Kadilar</i>	999
Semiparametric analysis for case-control studies: a partial smoothing spline approach <i>Young-Ju Kim</i>	1015
Space-time correlation analysis: a comparative study <i>Sandra De Iaco</i>	1027
Extended Bayesian model averaging for heritability in twin studies <i>Miao-Yu Tsai</i>	1043
Book Reviews	1059
Announcement	1065
