CONTENTS

Editorial

*Robert G. Aykroyd*

Non-stationary partition modeling of geostatistical data for malaria risk mapping  
*Laura Gosoni and Penelope Vounatsou*

A unified approach of meta-analysis: application to an antecedent biomarker study in Alzheimer's disease

*Chengjie Xiong, Gerald van Belle, Kejun Zhu, J. Philip Miller and John C. Morris*

Three-dimensional Bayesian image analysis and confocal microscopy  
*Fahimah Al-Awadhi, Merrilee Hurn and Christopher Jennison*

Generating multivariate continuous data via the notion of nearest neighbors  
*Hakan Demirtas and Donald Hedeker*

A flexible model for survival data with a cure rate: a Bayesian approach  
*Vicente G. Cancho, Josemar Rodrigues and Mário de Castro*

Fractional integration and impulse responses: a bivariate application to real output in the USA and four Scandinavian countries

*Guglielmo Maria Caporale and Luis A. Gil-Alana*

Double-sampling control charts for attributes

*Aurélia Aparecida De Araújo Rodrigues, Eugenio Kahn Epprecht and Maysa Sacramento De Magalhães*

A robust diagnostic plot for explanatory variables under model mis-specification  
*Li-Chu Chien*

Bayesian and likelihood inference for cure rates based on defective inverse Gaussian regression models

*Jeremy Balka, Anthony F. Desmond and Paul D. McNicholas*

The use of variance components for the assessment of outcome measures in rheumatology  
*E.J. Allen and V.T. Farewell*

Comparison of normal probability plots and dot plots in judging the significance of effects in two level factorial designs

*Guillermo de León, Pere Grima and Xavier Tort-Martorell*

Spatio-temporal analysis of a plant disease in a non-uniform crop: a Monte Carlo approach  
*Bin Li, R.S. Sanderlin, Rebecca A. Melanson and Qingzhao Yu*

Predicting rainy seasons: quantifying the beliefs of prophets

*J.A.A. Andrade and J.P. Gosling*

Inflation uncertainty and economic growth: evidence from the LAD ARCH model

*Ahmad Zubaidi Baharumshah, Nor Aishah Hamzah and Shamsul Rijal Muhammad Sabri*

Robustness without rank order statistics

*Paul W. Mielke, Jr., Kenneth J. Berry and Janis E. Johnston*

Marginal correlation from an extended random-effects model for repeated and overdispersed counts <i>Tony Vangeneugden, Geert Molenberghs, Geert Verbeke and Clarice G.B. Demétrio</i>	215
A control chart based on sample ranges for monitoring the covariance matrix of the multivariate processes <i>A.F.B. Costa and M.A.G. Machado</i>	233
Assessing cumulative logit models via a score test in random effect models <i>Kuo-Chin Lin</i>	247
$\alpha$ -stable laws for noncoding regions in DNA sequences <i>N. Crato, R.R. Linhares and S.R.C. Lopes</i>	261
Estimation of hazard of death in vertically transmitted HIV-1-infected children for doubly censored failure times and fixed covariates <i>T. Banerjee, G. Grover, T. Pensi and D. Banerjee</i>	273
Multicollinearity and financial constraint in investment decisions: a Bayesian generalized ridge regression <i>Aquiles E.G. Kalatzis, Camila F. Bassetto and Carlos R. Azzoni</i>	287
The comparison of enterprise bankruptcy forecasting method <i>Xu Xiaosi, Chen Ying and Zheng Haitao</i>	301
Optimal design of accelerated degradation tests based on Wiener process models <i>Heonsang Lim and Bong-Jin Yum</i>	309
A multivariate descriptor method for change-point detection in nonlinear time series <i>P.P. Balestrassi, A.P. Paiva, A.C. Zambroni de Souza, J.B. Turrioni and Elmira Popova</i>	327
Local influence analysis for regression models with scale mixtures of skew-normal distributions <i>C.B. Zeller, V.H. Lachos and F.E. Vilca-Labra</i>	343
Time-varying vector autoregressive models with stochastic volatility <i>K. Triantafyllopoulos</i>	369
Detecting mean increases in Poisson INAR(1) processes with EWMA control charts <i>Christian H. Weiß</i>	383
Simultaneous semi-sequential testing of dual alternatives for pattern recognition <i>Amitava Mukherjee and Barendra Purkait</i>	399
Outlier identification and robust parameter estimation in a zero-inflated Poisson model <i>Jun Yang, Min Xie and Thong Ngee Goh</i>	421
Book Reviews	431
