

## Contents

- |     |  |   |
|-----|--|---|
| 245 | Regression analysis on serial dilution data from virus validation robustness studies                               | N. van Geloven<br>E. A. Cator<br>H. P. Lopuhaä<br>M. P. Janssen |
| 258 | A composite indicator dimension reduction procedure with application to university student satisfaction            | M. Marozzi  |
| 269 | General framework for the rotation of units in repeated survey sampling  | D. Nedyalkova<br>L. Qualité<br>Y. Tillé                         |
| 294 | Testing for linear vector autoregressive dynamics under multivariate generalized autoregressive heteroskedasticity | C. M. Hafner<br>H. Herwartz                                     |
| 324 | Towards a better understanding of correlation  | J. C. W. Rayner<br>E. J. Beh                                    |
| 334 | Expert opinion versus expertise in forecasting   | P. H. Franses<br>M. McAleer<br>R. Legerstee                     |
| 347 | Change point detection in scale family distributions   | R. Habibi   |
| 353 | Response adaptive procedures with dual optimality  | U. Bandyopadhyay<br>R. Bhattacharya                             |
| 368 | Testing non-nested demand relations: linear expenditure system versus indirect addilog                             | P. de Boer<br>R. Paap   |
