

Contents

- | | | |
|-----|------------------------------------------------------------------------------------------------|-------------------------------------------|
| 1 | Modeling and prediction of surgical procedure times | P. S. Stepaniak
C. Heij
G. de Vries |
| 19 | A third-order point process characteristic for multi-type point processes | C. Comas
J. Mateu
A. Särkkä |
| 45 | Estimation of a k -monotone density: characterizations, consistency and minimax lower bounds | F. Balabdaoui
J. A. Wellner |
| 71 | The introduction of the 5-year impact factor: does it benefit statistics journals? | E. van Nierop |
| 77 | Multi-sample simple step-stress experiment under time constraints | M. Kateri
U. Kamps
N. Balakrishnan |
| 97 | A general asymptotic theory for time-series models | S. Ling
M. McAleer |
| 112 | A new bivariate generalized Poisson distribution | F. Famoye |
| 125 | On the number of categories in an ordered regression model | P. H. Franses
J. S. Cramer |
