

Contents

- | | | |
|-----|---|---|
| 255 | Editorial introduction | S. Gugushvili
C. Klaassen
P. Spreij |
| 257 | Old and new approaches to LIBOR modeling | A. Papapantoleon |
| 276 | Power variation for Itô integrals with respect to α -stable processes | J. M. Corcuera
G. Farkas |
| 290 | Non-parametric estimation for pure jump irregularly sampled or noisy Lévy processes | F. Comte
V. Genon-Catalot |
| 314 | Estimation of the characteristics of a Lévy process observed at arbitrary frequency | J. Kappus
M. Reiß |
| 329 | Understanding limit theorems for semimartingales: a short survey | M. Podolskij
M. Vetter |
| 352 | Multivariate elliptic processes | N. H. Bingham
J. M. Fry
R. Kiesel |
