

TECHNOMETRICS

Volume 53, Number 1, February 2011

Statistical Shape Analysis of Experiments for Manufacturing Processes Enrique del Castillo and Bianca M. Colosimo	1	Nearly-Isotonic Regression Ryan J. Tibshirani, Holger Hoefling, and Robert Tibshirani	54
Efficient MCMC Schemes for Computationally Expensive Posterior Distributions Mark Fielding, David J. Nott, and Shie-Yui Liang	16	Efficient Designs With Minimal Aliasing Bradley Jones and Christopher J. Nachtsheim	62
Statistical Emulation of Large Linear Dynamic Models P. C. Young and M. Ratto	29	Inference for the Lognormal Mean and Quantiles Based on Samples With Left and Right Type I Censoring K. Krishnamoorthy, Avishek Mallick, and Thomas Mathew	72
Robust Ridge Regression for High-Dimensional Data Ricardo A. Maronna	44	A Multivariate Sign EWMA Control Chart Changliang Zou and Fugee Tsung	84
		Book Reviews	98
		Errata	109
