2011

**Special Issue: Proceedings of Reisenburg 2009**

ORIGINAL PAPERS

**Estimating summary functionals in multistate models with an application to hospital infection data**

A. Allignol · M. Schumacher · J. Beyersmann 181

**Modelling non-stationary dynamic gene regulatory processes with the BGM model**

M. Grzegorzczak · D. Husmeier · J. Rahnenführer 199

**Hands-on tutorial for parallel computing with R**

M.J.A. Eugster · J. Knaus · C. Porzelius · M. Schmidberger · E. Vicedo 219

**A primer on disease mapping and ecological regression using INLA**

B. Schrödle · L. Held 241

**Empirical study for the agreement between statistical methods in quality assessment and control of microarray data**

M. Schmidberger · E. Vicedo · U. Mansmann 259

**Feature clustering for instrument classification**

U. Ligges · S. Krey 279

**The benefit of data-based model complexity selection via prediction error curves in time-to-event data**

C. Porzelius · M. Schumacher · H. Binder 293

**Search heuristics and the influence of non-perfect randomness: examining Genetic Algorithms and Simulated Annealing**

M. Maucher · U. Schöning · H.A. Kestler 303

**On the fusion of threshold classifiers for categorization and dimensionality reduction**

H.A. Kestler · L. Lausser · W. Lindner · G. Palm 321

**Multi-objective selection for collecting cluster alternatives**

J.M. Kraus · C. Müssel · G. Palm · H.A. Kestler 341

**Classification of repeated measurements data using tree-based ensemble methods**

W. Adler · S. Potapov · B. Lausen 355
