

CONTENTS

Overview	1
PART I: Economic developments at the aggregated level	5
1. The EU economy: the road ahead	7
1.1. Adjusting to a new steady state	7
1.2. The EU economy gradually emerging from the deep recession	10
1.3. Uncertainty remains high	32
1.4. Economic challenges ahead	33
2. Recent labour market developments and prospects	34
2.1. Labour market performance	34
2.2. Factors driving the labour market outlook	37
3. Government debt: past and future challenges	50
3.1. Economics of high government debt	51
3.2. Debt dynamics in historical perspective	52
3.3. Government developments during previous financial crisis periods	54
3.4. Government debt developments in the current crisis	56
3.5. Mechanical projections until 2020	59
3.6. A challenging consolidation ahead	62
PART II: Prospects by individual economy	67
Member States	69
1. Belgium: The path from policy-supported recovery to sustainable growth	70
2. Bulgaria: From recession to a more balanced growth pattern	73
3. The Czech Republic: From recession to gradual recovery	76
4. Denmark: Fiscal stimulus and private consumption underpin recovery	79
5. Germany: Export-led rebound eventually turning into broad-based recovery	82
6. Estonia: On a path of rapid adjustment	86
7. Ireland: Significant domestic adjustment underlying a gradual recovery	89
8. Greece: Economic downturn challenges public finances	92
9. Spain: A protracted economic adjustment ahead	95
10. France: Storm successfully weathered, uneven recovery underway	99
11. Italy: After the crisis, a return to moderate growth	103
12. Cyprus: Ongoing economic adjustment, slow recovery ahead	107
13. Latvia: Bulk of output correction over, public finances and the economy still reshaping	110
14. Lithuania: Sharp contraction puts public finances under strong pressure	114
15. Luxembourg: Recession followed by a relatively mild recovery	117
16. Hungary: Forceful adjustments help reduce economic vulnerabilities	120
17. Malta: Fragile recovery ahead	123
18. The Netherlands: Recovery from recession to be led by external demand	126

19.	Austria: From export-led recession to gradual export-led recovery	129
20.	Poland: Weathering the crisis relatively well	132
21.	Portugal: Gradual and shallow recovery	135
22.	Romania: Gradual recovery and correction of imbalances under way	138
23.	Slovenia: Sharp fall in activity followed by subdued recovery	141
24.	Slovakia: Resuming real convergence following a deep recession	144
25.	Finland: Strong external exposure takes its toll on the economy	147
26.	Sweden: Unemployment and fiscal deficit to peak amid muted recovery	150
27.	The United Kingdom: Path to recovery complicated by remaining imbalances	153
	Candidate Countries	157
28.	Croatia: Mild recovery after strong contraction	158
29.	The former Yugoslav Republic of Macedonia: Workers' remittances support stability	161
30.	Turkey: Drawn-out recovery after deep recession	163
	Other non-EU Countries	167
31.	The United States of America: Strong headwinds will slow down recovery	168
32.	Japan: Huge economic challenges for the new government	171
33.	China: Will China's growth model change?	174
34.	EFTA: Different paths towards recovery	177
35.	Russian Federation: Unexpectedly deep recession, tentative recovery	180
	Statistical Annex	185

LIST OF TABLES

I.1.1.	International environment	16
I.1.4.	Decomposition of the GDP growth forecast	20
I.1.2.	Main features of the autumn 2009 forecast - EU	20
I.1.5.	General government budgetary position - euro area and EU	30
I.1.6.	Euro area - debt dynamics	31
I.1.3.	Main features of the autumn 2009 forecast - euro area	33
I.2.1.	Employment growth by type of contracts and level of education	36
I.2.2.	Employment and participation rates by age groups and gender	36
I.2.3.	Recessions followed by W- and V-shaped recoveries	42
I.3.1.	Direct fiscal costs of banking crisis	56
I.3.2.	Fiscal policy in the forecast horizon, EU and euro area	58
I.3.3.	Decomposing the increases in debt ratio in the current crises	59
I.3.4.	Public interventions in the banking sector (% GDP) 1/	61
I.3.5.	Levels and increases in projected age-related expenditure as a share of GDP.	61
II.1.1.	Main features of country forecast - BELGIUM	72
II.2.1.	Main features of country forecast - BULGARIA	75

II.3.1.	Main features of country forecast - THE CZECH REPUBLIC	78
II.4.1.	Main features of country forecast - DENMARK	81
II.5.1.	Main features of country forecast - GERMANY	85
II.6.1.	Main features of country forecast - ESTONIA	88
II.7.1.	Main features of country forecast - IRELAND	91
II.8.1.	Main features of country forecast - GREECE	94
II.9.1.	Main features of country forecast - SPAIN	98
II.10.1.	Main features of country forecast - FRANCE	101
II.11.1.	Main features of country forecast - ITALY	106
II.12.1.	Main features of country forecast - CYPRUS	109
II.13.1.	Main features of country forecast - LATVIA	112
II.14.1.	Main features of country forecast - LITHUANIA	116
II.15.1.	Main features of country forecast - LUXEMBOURG	118
II.16.1.	Main features of country forecast - HUNGARY	122
II.17.1.	Main features of country forecast - MALTA	125
II.18.1.	Main features of country forecast - THE NETHERLANDS	128
II.19.1.	Main features of country forecast - AUSTRIA	131
II.20.1.	Main features of country forecast - POLAND	134
II.21.1.	Main features of country forecast - PORTUGAL	137
II.22.1.	Main features of country forecast - ROMANIA	140
II.23.1.	Main features of country forecast - SLOVENIA	143
II.24.1.	Main features of country forecast - SLOVAKIA	146
II.25.1.	Main features of country forecast - FINLAND	149
II.26.1.	Main features of country forecast - SWEDEN	152
II.27.1.	Main features of country forecast - THE UNITED KINGDOM	156
II.28.1.	Main features of country forecast - CROATIA	160
II.29.1.	Main features of country forecast - THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA	162
II.30.1.	Main features of country forecast - TURKEY	165
II.31.1.	Main features of country forecast - THE UNITED STATES	170
II.32.1.	Main features of country forecast - JAPAN	173
II.33.1.	Main features of country forecast - CHINA	176
II.34.1.	Main features of country forecast - EFTA	179
II.35.1.	Main features of country forecast - RUSSIA	182

LIST OF GRAPHS

I.1.1.	GDP forecasts for 2009, euro area	8
I.1.2.	Evolution of GDP and demand components across recessions, EU	8
I.1.3a.	Growth contributions in the downturn, current account surplus countries	9
I.1.3b.	Growth contributions in the downturn, current account deficit countries	9
I.1.4a.	Interbank market	11
I.1.4b.	Corporate spreads over eurozone bonds	11
I.1.4c.	Stock market performance	11
I.1.4d.	Indicator of financing cost	11
I.1.5.	Lending growth, euro area	13
I.1.6.	Elasticity of world trade to world income (Freund 2009)	17
I.1.7.	World trade and industrial activity advance indicators	17
I.1.8.	Inventory adjustment and industrial production, euro area	19
I.1.9.	Business cycle tracer, euro area	20

I.1.10.	Equipment investment and capacity utilisation in manufacturing, EU	22
I.1.11.	Equipment investment and business confidence, EU	22
I.1.12.	Private consumption, disposable income and net social transfers, euro area	23
I.1.13.	Employment growth and unemployment rate, EU	23
I.1.14.	Average quarterly changes at the start of past recoveries, euro area	26
I.1.15.	Unemployment rate following recessions, euro area	26
I.1.16.	Actual and structural unemployment rate, euro area	26
I.1.17.	Contributions to inflation, euro area	27
I.1.18.	Headline and core inflation forecast, euro area	27
I.1.19.	Inflation expectations, euro area	29
I.1.20.	Increase in government deficit across recessions, euro area	30
I.1.21.	Total revenue and expenditure (four-quarter moving average), EU	31
I.1.22.	Euro area GDP forecasts: Uncertainty linked to the balance of risks	33
I.2.1.	Unemployment rates in the EU	34
I.2.2.	Employment and GDP growth in the EU	35
I.2.3.	Correlation between output growth and change in unemployment 2006Q2-2009Q1	38
I.2.4.	Average hours worked in selected countries - change 2008Q2-2009Q1	38
I.2.5a.	Gap between actual and predicted employment growth	38
I.2.5b.	Gap between actual and predicted unemployment rate changes	38
I.2.6.	Changes in unemployment around recessions	40
I.2.7.	The Okun's coefficient over different periods	41
I.2.8.	Okun's coefficients: rolling regression estimates	42
I.2.9a.	Average evolution of GDP growth in the quarters following the recession	43
I.2.9b.	Average evolution of unemployment rate in the quarters following the recession	43
I.2.9c.	Average evolution of labour force in the quarters following the recession	43
I.2.9d.	Average evolution of employment in the quarters following the recession	43
I.2.10a.	Spain - A measure of sectoral reallocation - Employment growth by sector (7 branches) - Standard deviation	44
I.2.10b.	Italy - A measure of sectoral reallocation - Employment growth by sector (7 branches) - Standard deviation	44
I.2.10c.	France - A measure of sectoral reallocation - Employment growth by sector (7 branches) - Standard deviation	44
I.2.10d.	Germany - A measure of sectoral reallocation - Employment growth by sector (7 branches) - Standard deviation	44
I.2.11.	The Beveridge curve, euro area	46
I.2.12a.	Compensation per employee and negotiated wages	47
I.2.12b.	Compensation per employee and negotiated wages	47
I.3.1.	Developments in government gross debt, primary balance, real effective interest rate, nominal and potential GDP growth, EU	53

I.3.2.	Contributions to the change in government debt ratios of: interest expenditure, primary balance, stock flow adjustment, real GDP and GDP deflator growth, EU	54
I.3.3.	Government balance, cyclically-adjusted primary balance and gross debt, EU	55
I.3.4.	Historical changes in debt in previous financial crises	57
I.3.5.	Developments up to 2020 in the gross debt-to-GDP ratio in euro-area Member States assuming no consolidation on top of fiscal stimulus withdrawal	63
I.3.6.	Developments up to 2020 in the gross debt-to-GDP ratio in non-euro-area Member States assuming no consolidation on top of fiscal stimulus withdrawal	63
I.3.7.	Developments up to 2020 in the gross debt-to-GDP ratio in euro-area Member States assuming an annual 0.5 pp. consolidation	64
I.3.8.	Developments up to 2020 in the gross debt-to-GDP ratio in non-euro-area Member States assuming an annual 0.5 pp. consolidation	64
I.3.9.	The effort required to bring debt to 60% of GDP by 2020	65
I.3.10.	Developments up to 2020 in the gross debt-to-GDP ratio in the EU: unchanged policy vis-à-vis consolidation assumptions	65
I.3.11.	Primary balances underlying the medium-term projections for government debt.	65
II.1.1.	Belgium - Business confidence and GDP growth	70
II.1.2.	Belgium - Public finance trends	71
II.2.1.	Bulgaria - Inflation, current account balance and contributions to GDP growth	73
II.3.1.	The Czech Republic - Contributions to GDP growth	76
II.3.2.	The Czech Republic - Government finances	77
II.4.1.	Denmark - GDP growth and contributions	79
II.5.1.	Germany - GDP growth and contributions	82
II.5.2.	Germany - Private consumption and real disposable income	83
II.5.3.	Germany - General government gross debt and deficit	84
II.6.1.	Estonia - GDP, external balance, inflation and wage growth	86
II.7.1.	Ireland - Real GDP growth, growth contributions and unemployment rate	90
II.8.1.	Greece - Net lending or net borrowing of the economy	92
II.9.1.	Spain - Contributions to growth	96
II.9.2.	Spain - General government accounts	97
II.10.1.	France - GDP growth and contributions	99
II.10.2.	France - General government gross debt and deficit	101
II.11.1.	Italy - Real GDP levels and main components	103
II.11.2.	Italy - Government revenues and primary expenditure excluding one-offs	105
II.12.1.	Cyprus - Public Finances	107
II.13.1.	Latvia - GDP growth and contributions	110
II.13.2.	Latvia - Output gap, inflation, unit labour cost	111
II.14.1.	Lithuania - Unemployment rate and compensation per employee	114
II.14.2.	Lithuania - General government deficit and gross debt	115
II.15.1.	Luxembourg - Employment and GDP	117
II.16.1.	Hungary - General government balance and public debt	121
II.17.1.	Malta - General government finances	124

II.18.1.	The Netherlands - Unemployment and vacancy rates	126
II.18.2.	The Netherlands - Government balance and debt	127
II.19.1.	Austria - GDP growth and contributions	130
II.20.1.	Poland - GDP growth and contributions	132
II.21.1.	Portugal - Net external liabilities, GDP and GNI	135
II.21.2.	Portugal - Government debt	136
II.22.1.	Romania - Contributions to growth	139
II.23.1.	Slovenia - GDP and exports growth, volumes	141
II.24.1.	Slovakia - GDP growth and contributions	144
II.25.1.	Finland - Exports and imports	147
II.26.1.	Sweden - Contributions to GDP growth	150
II.27.1.	The United Kingdom - Output gap and contributions to GDP growth	153
II.27.2.	The United Kingdom - Households' balance sheet and saving ratio	154
II.27.3.	The United Kingdom - Monetary Conditions Indicators	155
II.28.1.	Croatia - Contributions to GDP growth	159
II.29.1.	The former Yugoslav Republic of Macedonia - Labour market	161
II.29.2.	The former Yugoslav Republic of Macedonia - Public finances	162
II.30.1.	Turkey - Growth, consumption and investment	163
II.30.2.	Turkey - Public finances	164
II.31.1.	USA - Quarterly growth rate of real GDP	169
II.32.1.	Japan - Yen per US dollar	171
II.32.2.	Japan - Consumer prices	172
II.33.1.	China - Export volumes growth	174
II.33.2.	China - Current account balance	175
II.34.1.	EFTA - GDP growth	177
II.34.2.	EFTA - Unemployment	178
II.35.1.	Russia - GDP	180
