

CONTENTS

Overview	1
PART I: Economic developments at the aggregated level	5
1. European recovery maintains momentum amid new risks	7
1.1. A subdued recovery in its third year	7
1.2. The external environment	10
1.3. Financial markets in Europe	14
1.4. The economic recovery in the EU	17
1.5. Heightened uncertainty	36
2. Macroeconomic impact of higher sovereign risk	40
2.1. Introduction	40
2.2. Measuring the increase in the sovereign-risk premium	41
2.3. Impact of sovereign risk on public sector activity	46
2.4. Effects of higher sovereign risk on the financing of the corporate sector	48
2.5. Spillover to private consumption via wealth and confidence effects	55
3. Developments in and prospects for saving and investment trends across the European Union and the euro area	60
3.1. Introduction	60
3.2. Aggregate and Sectoral patterns in saving and investment	61
3.3. An assesment of potential driving forces behind developments in Saving and investment	65
3.4. Near-term adjustment prospects for saving and investment	76
PART II: Prospects by individual economy	79
Member States	81
1. Belgium: Recovery continues as labour market improves	82
2. Bulgaria: Moderate recovery alongside ongoing fiscal consolidation	85
3. The Czech Republic: A moderate recovery driven by external demand	88
4. Denmark: A gradual and moderate recovery	91
5. Germany: Steady, broad-based growth supported by sound fundamentals	94
6. Estonia: Economic recovery gaining further ground	98
7. Ireland: Ready for a gradual recovery after facing up to the full costs of the banking crisis	101
8. Greece: Rebalancing growth amidst ongoing fiscal consolidation	105
9. Spain: Subdued growth despite strong external demand	108
10. France: Continued recovery increasingly supported by investment	112
11. Italy: Slow recovery continues	116
12. Cyprus: Imbalances weighing on the economic recovery	120
13. Latvia: Economic and budgetary re-balancing continues at full speed	123
14. Lithuania: Strong recovery as domestic demand picks up	126
15. Luxembourg: Strong growth, but still below pre-crisis average pace	129

16. Hungary: Recovery firming up, with a gradual rebalancing of growth	131
17. Malta: Moderate growth outlook after a strong rebound in 2010	135
18. The Netherlands: Gradual rebalancing of growth	138
19. Austria: Stronger growth, but subject to greater risk	141
20. Poland: Recovery continues as strong private demand counterbalances rapid fiscal consolidation	144
21. Portugal: Times of adjusting and rebalancing	147
22. Romania: Signs of recovery after a long recession	150
23. Slovenia: Momentum slow to build after particularly pronounced downturn	153
24. Slovakia: An externally-driven recovery continues	156
25. Finland: Economic recovery on a firm path	159
26. Sweden: Strong growth set to moderate as recovery matures	162
27. The United Kingdom: New growth sources to sustain the moderate recovery	165
Candidate Countries	169
28. Croatia: Sluggish growth in the run-up to EU accession	170
29. The former Yugoslav Republic of Macedonia: Between post-crisis and catching-up	173
30. Iceland: Slow recovery after long and severe recession	175
31. Montenegro: A recovery of sorts	178
32. Turkey: Robust growth driven by private sector demand	180
Other non-EU Countries	183
33. The United States of America: A subdued recovery after the financial crisis	184
34. Japan: Darkened outlook after the earthquake	187
35. China: A soft landing?	190
36. EFTA: Well beyond the crisis	193
37. Russian Federation: V-shaped recovery continues	196
Statistical Annex	201

LIST OF TABLES

I.1.1.	International environment	10
I.1.2.	Main features of the spring 2011 forecast - EU	17
I.1.3.	GDP growth forecast, additional features	18
I.1.4.	Main features of the spring 2011 forecast - euro area	18
I.1.5.	Euro-area debt dynamics	36
I.2.1.	CDS spreads of sovereign debt	43
I.2.2.	OLS Regression: Relationship between the change in bond spreads and public debt	46
I.2.3.	Simulations of bank losses of 1% of GDP: Impact in first year.	55
I.3.1.	Main long-run determinants of the private sector gross saving ratio	72
I.3.2.	Main long-run determinants of the priv. investment ratio	75

LIST OF GRAPHS

I.1.1.	Real GDP, EU	7
I.1.2.	Comparison of recoveries, current against past average - GDP, euro area	8
I.1.3.	A global multi-speed recovery - real GDP, annual growth	8
I.1.4a.	GDP per capita, advanced economies	8
I.1.4b.	GDP per capita, emerging and developing economies	8
I.1.5a.	A multi-speed recovery in the EU - real GDP, annual growth (unweighted)	9
I.1.5b.	A multi-speed recovery in the EU - real GDP, annual growth (unweighted)	9
I.1.6.	Real GDP 2008-10	9
I.1.7.	World trade and PMI global manufacturing output	10
I.1.8.	Commodity-price developments	11
I.1.9.	Policy interest rates, euro area, UK and US	14
I.1.10.	Bank lending to households and non-financial corporations, euro area	16
I.1.11.	Government-bond yields, selected Member States	16
I.1.12.	Corporate spreads over euro-area government benchmark bonds	16
I.1.13.	Stock-market performance	17
I.1.14.	Real GDP, euro area	17
I.1.15.	Industrial new orders and industrial production, EU	18
I.1.16.	Economic Sentiment Indicator and PMI composite index, EU	20
I.1.17.	EU real GDP growth 2010-12, largest contributions by Member States	20
I.1.18.	Economic Sentiment Indicator (ESI) and components - April 2011, difference from long-term average	22
I.1.19.	PMI manufacturing output index	22
I.1.20.	GDP growth and its components, EU	22
I.1.21.	Private consumption and consumer confidence, euro area	23
I.1.22.	Expected major purchases over the next year and car sales, EU	23
I.1.23.	Retail trade volumes and retail confidence, euro area	23
I.1.24.	Private consumption, real disposable income and saving rate, euro area	24
I.1.25.	Equipment investment and capacity utilisation in manufacturing, euro area	25
I.1.26.	Profit growth, euro area	25
I.1.27.	Housing investment and building permits, euro area	26
I.1.28.	Global demand, euro-area exports and new export orders	27
I.1.29.	Current-account balances, euro-area Member States	28
I.1.30.	Current-account balance for deficit and surplus EU Member States	28
I.1.31.	The labour market, EU	29
I.1.32.	Industrial producer prices, euro area	30
I.1.33.	PMI manufacturing input prices and output prices, EU	31
I.1.34.	HICP, euro area	31
I.1.35.	Inflation breakdown, EU	31
I.1.36.	Inflation expectations, euro area	32
I.1.37.	Inflation dispersion of euro area Member States - HICP inflation rates	32
I.1.38.	General government budget balance	35

I.1.39.	Taxes and expenditure, euro area	36
I.1.40.	Euro area GDP forecasts - Uncertainty linked to the balance of risks	37
I.2.1.	Sovereign-bond yields	41
I.2.2.	Changes in sovereign-bond and sovereign-CDS spreads, 5-year maturities, 12/2009 to 4/2011	43
I.2.3.	Rating events and sovereign-yield spreads	44
I.2.4.	Changes in interest-rate spreads and debt/GDP across euro-area Member States	46
I.2.5.	Debt-servicing costs by general government in 2011	47
I.2.6.	Stock-price developments	48
I.2.7.	Sovereign- and corporate-bond spreads 2008-11	49
I.2.8.	Yield on bonds issued by Portuguese corporate issuers	49
I.2.9.	CDS spread of sovereign and corporate debt	50
I.2.10.	Spreads on CDS contracts on Spanish corporates, 5-years maturity	50
I.2.11.	CDS spread on sovereign and banks senior debt	51
I.2.12.	Correlation between sovereign and bank CDS	52
I.2.13.	Credit standards on loans to NFIs	53
I.2.14.	NFI Credit Rate Spreads - versus Euribor rates	53
I.2.15.	Loans to NFI relative to GDP	54
I.2.16.	Value of sovereign bonds	55
I.2.17.	Impact of a 10-year lasting 400-basis-point sovereign-risk shock	56
I.2.18.	Euro area - Consumers' assessment of the general economic situation	57
I.3.1.	EU - Investment and saving	61
I.3.2.	Changes in saving and investment ratios: pre-crisis period (2005-07 vs. 1996-98)	61
I.3.3.	Changes in saving and investment ratios: crisis period (2008-10 vs. 2005-07)	62
I.3.4a.	Changes in the saving ratio: pre-crisis period (2005-07 vs. 1996-98)	63
I.3.4b.	Changes in the saving ratio: crisis period (2008-10 vs. 2005-07)	63
I.3.4c.	Changes in the investment ratio: pre-crisis period (2005-07 vs. 1996-98)	63
I.3.4d.	Changes in the investment ratio: crisis period (2008-10 vs. 2005-07)	63
I.3.5.	Equipment: Investment-to-GDP ratios in EU countries, before and during the crisis	64
I.3.6.	Construction: Investment-to-GDP ratios in EU countries, before and during the crisis	65
I.3.7.	EU and EA: Output gap and general government deficit (1997-2009)	65
I.3.8.	Dependency ratio and general government deficits	66
I.3.9.	Sectoral saving, EU	67
I.3.10.	Real interest rates and savings, EU15	67
I.3.11.	Gross government and private sector saving, EU	67
I.3.12.	Loans, financial assets and private saving	68
I.3.13.	Private saving and demographics	68
I.3.14.	Investment and economic activity, EU	69
I.3.15.	Investment-to-GDP ratios and price deflator of capital goods, 1996-2007	70

I.3.16.	Equipment investment-to-GDP ratios and price deflator of capital goods, 1996-2007	70
I.3.17.	Investment-to-GDP ratios and wage share, 1996-2007	70
I.3.18.	Loans of non-financial corporations, euro area (Jan. 2000-Aug. 2010)	71
I.3.19a.	Private saving: actual and predicted long-run equilibrium ratio, 2008	73
I.3.19b.	EU15: contribution to change in private gross saving ratio	73
I.3.20.	Private investment: actual and predicted long-run equilibrium ratios, 2008	75
I.3.21.	EU15: contribution to change in private gross investment ratio	75
I.3.22b.	Changes in the investment ratio: forecast period (2012 vs. 2010)	76
I.3.22a.	Changes in the saving ratio and the current account balance: forecast period (2012 vs. 2010)	76

LIST OF BOXES

I.1.1.	The impact of the Tōhoku earthquake in Japan on the world economy	12
I.1.2.	How far is the private sector in its deleveraging process?	15
I.1.3.	How do business and consumer survey readings depict the ongoing recovery?	19
I.1.4.	The macroeconomic impact of higher oil prices	21
I.1.5.	Inflation differentials in the EU and euro area	33
I.1.6.	Some technical elements behind the forecast	38
I.2.1.	Measurement of the risk-free interest	42
I.2.2.	Contagion between Member States	45
I.2.3.	Econometric model to identify expectations shocks	58
