

CONTENTS

Overview	1
PART I: Economic developments at the aggregated level	7
1. The EU economy: A recovery in distress	9
1.1. Overview	9
1.2. Putting the forecast into perspective	11
1.3. The external environment	18
1.4. Financial markets in Europe	23
1.5. The EU economy	28
1.6. Risks	54
2. Post-recession labour market patterns in the EU	58
2.1. Introduction	58
2.2. Setting the scene: Employment prospects and unemployment developments	58
2.3. Factors driving labour market developments	63
2.4. Has the labour matching process deteriorated?	67
2.5. Trend and determinants of structural unemployment in the aftermath of the recession	69
2.6. Overall assessment	76
PART II: Prospects by individual economy	79
Member States	81
1. Belgium: Growth slowdown amidst weaker global growth and new bank worries	82
2. Bulgaria: Moderate growth amid rising uncertainty	85
3. The Czech Republic: Soft patch in 2012 followed by moderate recovery	88
4. Denmark: A modest recovery	91
5. Germany: Growth momentum temporarily halted by uncertainty	94
6. Estonia: Reviving domestic demand is balancing growth	98
7. Ireland: Export-driven recovery weighed by continuing household deleveraging and fiscal consolidation	101
8. Greece: Painful adjustment	105
9. Spain: Unwinding imbalances in a weakening external environment	108
10. France: Domestic growth weakened by global risks and declining confidence	112
11. Italy: Subdued growth ahead	116
12. Cyprus: Subdued growth prospects while fiscal challenges persist	120
13. Latvia: Growth exceeds expectations in 2011 but outlook for 2012 worsens	123
14. Lithuania: Strong recovery to dampen in line with global trends	126
15. Luxembourg: Uncertain times ahead for a large financial centre	129
16. Hungary: Bumpy ride ahead	131
17. Malta: Global uncertainty hits domestic demand	135
18. The Netherlands: Moderate growth hinging on external demand	138
19. Austria: Recovery losing pace	141
20. Poland: Progressing despite adverse global economic conditions	144

21. Portugal: Strong fiscal consolidation efforts in a challenging environment	147
22. Romania: Recovery to continue despite worsening external environment	150
23. Slovenia: Prospects depend on stabilisation of construction	154
24. Slovakia: Growth slowdown ahead	157
25. Finland: Economic recovery slowing but public finances stable	160
26. Sweden: Growth to decelerate amid rising uncertainty	163
27. The United Kingdom: The pause in growth risks becoming prolonged	166
Candidate Countries	171
28. Croatia: Subdued economic activity in the near term	172
29. The former Yugoslav Republic of Macedonia: Catching up, albeit with question marks ...	175
30. Iceland: Uncertainties persist amid a tentative recovery	177
31. Montenegro: A dilemma of growth and sluggish credit	180
32. Turkey: Riding the tides of the slowdown	182
Other non-EU Countries	185
33. The United States of America: Slowing growth amid greater uncertainty and fiscal consolidation	186
34. Japan: Strong rebound in the short run but fading prospects	189
35. China: Growth is slowing down	192
36. EFTA: The outlook deteriorates	195
37. Russian Federation: The recovery stutters	198
Statistical Annex	203

LIST OF TABLES

I.1.1.	Overview - the autumn 2011 forecast	10
I.1.2.	International environment	18
I.1.3.	Main features of the autumn 2011 forecast - EU	29
I.1.4.	Main features of the autumn 2011 forecast - euro area	30
I.1.5.	Composition of growth - EU	33
I.1.6.	Composition of growth - euro area	34
I.1.7.	Labour market outlook - euro area and EU	43
I.1.8.	Inflation outlook - euro area and EU	46
I.1.9.	General government net lending and EDP deadlines	50
I.1.10.	Euro-area debt dynamics	54
I.2.1.	Key labour market indicators by Member State	59
I.2.2.	Sectoral employment growth	59
I.2.3.	Recent NAWRU developments across EU countries	70
I.2.4.	Results of panel regression, with NAWRU as the dependent variable	71

LIST OF GRAPHS

I.1.1.	Real GDP, EU	9
I.1.2.	HICP, EU	10
I.1.3.	iTraxx - default risk, financials and overall	11
I.1.4.	Stock market indices, selected euro-area Member States	12
I.1.5.	Sovereign bond spreads, selected euro-area Member States	12
I.1.6.	Sovereign bond spreads and Economic Sentiment Indicator, euro area	13
I.1.7.	Employment expectations, DG ECFIN surveys, euro area	13
I.1.8.	Interbank market spreads	13
I.1.9.	Net tightening of credit standards, loans to non-financial corporations	14
I.1.10.	Impact of economic outlook on credit standards for enterprises	14
I.1.11.	Consensus forecast (mean) for real GDP growth in 2011 and 2012	15
I.1.12.	World trade and Global PMI manufacturing output	18
I.1.13a.	The decline in world trade in 2008-09	19
I.1.13b.	The rebound in world trade in 2009-11	19
I.1.14.	Commodity-price developments	20
I.1.15.	Food and agricultural non-food prices	20
I.1.16a.	GDP per capita, advanced economies	21
I.1.16b.	GDP per capita, emerging and developing economies	21
I.1.17.	Real GDP growth in advanced and emerging economies	22
I.1.18.	Government-bond yields, selected euro-area Member States	23
I.1.19.	Central bank balance sheets, euro area, UK and US (weekly data)	24
I.1.20.	Corporate spreads over euro-area sovereign benchmark bonds (5-year maturity)	24
I.1.21.	Stock-market indices, euro area	24
I.1.22.	Interbank market spreads	25
I.1.23.	Policy interest rates, euro area, UK and US	25
I.1.24.	Bank lending to households and non-financial corporations, euro area	27
I.1.25.	Loans to NFI relative to GDP	27
I.1.26.	Comparison of recoveries, current against past average - GDP, euro area	28
I.1.27.	Real GDP growth, EU and euro area, semi-annual growth rates	28
I.1.28.	Industrial new orders and industrial production, EU	29
I.1.29.	Economic Sentiment Indicator and PMI composite index, EU	30
I.1.30.	Economic Sentiment Indicator (ESI) and components - October 2011, difference from long-term average	30
I.1.31.	Real GDP, euro area	31
I.1.32.	GDP growth and its components, EU	32
I.1.33.	Real GDP growth, Member States, 2008-13	33
I.1.34.	Real GDP growth, EU, contributions by Member States	33
I.1.35.	PMI manufacturing output, Member States	34
I.1.36.	A multi-speed recovery in the EU - real GDP, annual growth (unweighted)	35
I.1.37.	Private consumption and consumer confidence, euro area	35
I.1.38.	Retail trade volumes and retail confidence, euro area	36

I.1.39.	Expected major purchases over the next year and car registrations, EU	36
I.1.40.	Gross fixed capital formation, euro area, US and Japan	38
I.1.41.	Equipment investment and capacity utilisation, euro area	39
I.1.42.	Profit growth, EU and euro area	39
I.1.43.	Housing investment and building permits, euro area	39
I.1.44.	Global demand, euro-area exports and new export orders	40
I.1.45.	Current-account balances, euro-area Member States	42
I.1.46.	Cumulative current-account balances of deficit and surplus, euro-area Member States	42
I.1.47.	Employment growth and unemployment rate, EU	43
I.1.48.	Employment expectations, DG ECFIN surveys, euro area	44
I.1.49.	Unemployment rates across euro-area population	45
I.1.50.	Industrial producer prices, euro area	46
I.1.51.	PMI manufacturing input prices and output prices, EU	47
I.1.52.	HICP, euro area	47
I.1.53.	Inflation breakdown, EU	48
I.1.54.	Inflation expectations, euro area	48
I.1.55.	Inflation dispersion of EA Member States - HICP inflation rates	49
I.1.56.	Contribution of energy inflation to headline inflation (Q1-2011 - Q3-2011)	49
I.1.57.	HICP inflation across euro-area population	50
I.1.58.	General government revenues and expenditure, EU	51
I.1.59.	Budgetary developments, euro area	51
I.1.60.	Medium-term public debt projections in the EU	54
I.1.61.	GDP forecasts , euro area - Uncertainty linked to the balance of risks	55
I.2.1.	Employment and GDP growth in the EU	58
I.2.2.	GDP and employment in the EU Member States: cumulated changes between Q2-2009 and Q2-2011	60
I.2.3.	Unemployment rates in the EU	60
I.2.4.	Cumulative changes in GDP, number of employees and hours per worker	63
I.2.5.	Phillips curve for the euro area 2000-10: growth of negotiated wages	64
I.2.6.	Phillips curve for the euro area 2000-10: growth of compensation per employee	64
I.2.7.	Real wage growth, euro area	65
I.2.8.	Job finding and separation rates in the EU	66
I.2.9.	Job finding rates – the probability of leaving unemployment has fallen during the crisis and remains low in many Member States	66
I.2.10.	Job separation rates - the probability of losing a job remains high in many Member States	67
I.2.11.	Beveridge curve for the EU 2000Q1-2011Q3	69
I.2.12.	Shifts in the euro-area Beveridge curve and NAWRU (cumulated changes since 1996)	69
I.2.13.	EU15 NAWRU developments (1967-2012)	70
I.2.14.	NAWRU developments in selected countries	71
I.2.15.	NAWRU and fit based on a panel regression 1970-2008	72
I.2.16.	Alternative fit for selected countries, Spain	74
I.2.17.	Alternative fit for selected countries, Ireland	74

LIST OF BOXES

I.1.1.	Bank balance-sheet adjustment and credit supply	16
I.1.2.	Are capital flows to Central- and Eastern European Member States at risk?	26
I.1.3.	Fiscal consolidation, confidence and the economic outlook.	52
I.1.4.	Some technical elements behind the forecast	56
I.2.1.	The German labour market during the recession	61
I.2.2.	The effect of skill mismatches on unemployment	68
I.2.3.	The role of a housing market shock	73
I.2.4.	Demand and supply factors driving the Spanish employment rate	75

LIST OF MAPS

I.1.1.	Labour market developments in the EU Member States, change in unemployment rates between 2005 and 2011	45
