

BIOMETRIKA VOL. 95, NO. 1

CONTENTS

	PAGE
FRASER, D. A. S. and ROUSSEAU, J. Studentization and deriving accurate p -values	1
WERMUTH, N. and COX, D. R. Distortion of effects caused by indirect confounding	17
HUBBARD, A. E. and VAN DER LAAN, M. J. Population intervention models in causal inference	35
VANDERWEELE, T. J. and ROBINS, J. M. Empirical and counterfactual conditions for sufficient cause interactions	49
RIZOPOULOS, D., VERBEKE, G. and MOLENBERGHS, G. Shared parameter models under random effects misspecification	63
CAI, T., TIAN, L., SOLOMON, S. D. and WEI, L. J. Predicting future responses based on possibly misspecified working models	75
KIM, S., CHEN, M.-H. and DEY, D. K. Flexible generalized t -link models for binary response data	93
CHEN, K., YING, Z., ZHANG, H. and ZHAO, L. Analysis of least absolute deviation	107
YU, Z. and LIN, X. Nonparametric regression using local kernel estimating equations for correlated failure time data	123
CHANG, I. H. and MUKERJEE, R. Bayesian and frequentist confidence intervals arising from empirical-type likelihoods	139
WANG, J., SHEN, X. and LIU, Y. Probability estimation for large-margin classifiers	149
PAPASPILIOPOULOS O. and ROBERTS, G. O. Retrospective Markov chain Monte Carlo methods for Dirichlet process hierarchical models	169
BJØRNSTAD, J. F. and YTTERSTAD, E. Two-stage sampling from a prediction point of view when the cluster sizes are unknown	187
SCHEIKE, T. H., ZHANG, M.-J. and GERDS, T. A. Predicting cumulative incidence probability by direct binomial regression	205
BANDEEN-ROCHE, K. and NING, J. Nonparametric estimation of bivariate failure time associations in the presence of a competing risk	221
MISCELLANEA	
CHENG, Y. and FINE, J. P. Nonparametric estimation of cause-specific cross hazard ratio with bivariate competing risks data	233
ZOU, H. A note on path-based variable selection in the penalized proportional hazards model	241
ROSENBAUM, P. R. Testing hypotheses in order.	248
POSCH, M., WASSMER, G. and BRANNATH W. A note on repeated p -values for group sequential designs	253
LING, S. and LI, D. Asymptotic inference for a nonstationary double AR(1) model	257
