

TEST

INVITED PAPER

- 409 J. Fan • J. Jiang
Nonparametric inference with generalized likelihood ratio tests

DISCUSSION

- 445 P.J. Bickel (comment)
448 P. Hall (comment)
450 H.-G. Müller (comment)
453 J. Lafferty • L. Wasserman (comment)
456 R.J. Carroll • A. Maity (comment)
459 J.L. Horowitz (comment)
462 E. Mammen (comment)
465 S. Efromovich (comment)
468 R. Cao (comment)
471 J. Fan • J. Jiang (rejoinder)

ORIGINAL PAPERS

- 479 P. García-Soidán
Asymptotic normality of the Nadaraya–Watson semivariogram estimators
- 504 E. De Santis
Alternative Bayes factors: Sample size determination and discriminatory power assessment
- 523 C. Chesneau
A maxiset approach of a Gaussian noise model
- 547 M. Saïd • N. Ghazzali • L.-P. Rivest
Score tests for independence in parametric competing risks models
- 565 H.P. Singh • P. Chandra • A.H. Joarder • S. Singh
Family of estimators of mean, ratio and product of a finite population using random nonresponse
- 598 A.J. Van der Merwe • J. Hugo
Bayesian tolerance intervals for the balanced two-factor nested random effects model

ACKNOWLEDGEMENT

- 613 Acknowledgement of refereeing work
