

TEST

INVITED PAPER

- 417 J.P. Romano • A.M. Shaikh • M. Wolf
Control of the false discovery rate under dependence using the bootstrap and subsampling

DISCUSSION

- 443 J.A. Ferreira • M.A. van de Wiel (comment)
446 W. Guo (comment)
450 S.K. Sarkar • R. Heller (comment)
456 J.F. Troendle (comment)
458 D. Yekutieli (comment)
461 J.P. Romano • A.M. Shaikh • M. Wolf (rejoinder)

ORIGINAL PAPERS

- 472 E. Moreno • F.J. Girón
Comparison of Bayesian objective procedures for variable selection in linear regression
- 493 J.A. Cano • D. Salmerón • C.P. Robert
Integral equation solutions as prior distributions for Bayesian model selection
- 505 P. Terán
On the equivalence of Aumann and Herer expectations of random sets
- 515 A. Aue • L. Horváth • P. Kokoszka • J. Steinebach
Monitoring shifts in mean: Asymptotic normality of stopping times
- 531 G. Biau • B. Cadre • L. Devroye • L. Györfi
Strongly consistent model selection for densities
- 546 M. Matsui • A. Takemura
Goodness-of-fit tests for symmetric stable distributions—Empirical characteristic function approach
- 567 J.G. De Gooijer
Partial sums of lagged cross-products of AR residuals and a test for white noise
- 585 G. Consonni • E. Gutiérrez-Peña • P. Veronese
Compatible priors for Bayesian model comparison with an application to the Hardy–Weinberg equilibrium model
- 606 B.G. Hudson • R.H. Gerlach
A Bayesian approach to relaxing parameter restrictions in multivariate GARCH models

ACKNOWLEDGMENT

- 628 Acknowledgment of refereeing work

ERRATUM

- 491 E. Moreno • F.J. Girón
Comparison of Bayesian objective procedures for variable selection in linear regression
