TEST

INVITED PAPER

- 1 J.G. Ibrahim • G. Molenberghs
Missing data methods in longitudinal studies: a review

DISCUSSION

- 44 M.D. Ugarte (comment)
47 R.J. Little (comment)
51 M.J. Daniels • C. Wang (comment)
59 J.W. Hogan (comment)
65 M.G. Kenward • J.R. Carpenter (comment)
68 J.G. Ibrahim • G. Molenberghs (rejoinder)

ORIGINAL PAPERS

- 76 S. Geffray
Strong approximations for dependent competing risks with independent censoring
- 96 J.M. Vidal-Sanz
Automatic spectral density estimation for random fields on a lattice via bootstrap
- 115 B.X. Wang • K. Yu
Optimum plan for step-stress model with progressive type-II censoring
- 136 P. Barbedor
Independent component analysis by wavelets
- 156 É. Krauczi
A study of the quantile correlation test for normality
- 166 E. Brunel • F. Comte • A. Guilloux
Nonparametric density estimation in presence of bias and censoring
- 195 D. Radulović
Another look at the disjoint blocks bootstrap
