TEST

INVITED PAPER

- 1 H.-G. Müller • W. Yang
Dynamic relations for sparsely sampled Gaussian processes

DISCUSSION

- 30 H. Cardot (comment)
34 A. Colubi • G. González-Rodríguez (comment)
37 J. Fan • J.-T. Zhang • W. Zhang (comment)
43 W. González-Manteiga • A. Martínez-Calvo (comment)
46 N.E. Heckman (comment)
50 G. Hooker (comment)
54 D. Şentürk (comment)
56 N. Wang (comment)
60 H.-G. Müller • W. Yang (rejoinder)

ORIGINAL PAPERS

- 68 N. Balakrishnan • E. Beutner • E. Cramer
Exact two-sample nonparametric confidence, prediction,
and tolerance intervals based on ordinary
and progressively type-II right censored data
- 92 M. Hušková • S.G. Meintanis
Tests for the error distribution in nonparametric possibly
heteroscedastic regression models
- 113 P. Majerski • Z. Szkutnik
Approximations to most powerful invariant tests
for multinormality against some irregular alternatives
- 131 K.Y. Cheung • S.M.S. Lee
Bootstrap variance estimation for Nadaraya quantile estimator
- 146 N. Loperfido
Canonical transformations of skew-normal variates
- 166 O.B. Linton • D.T. Jacho-Chávez
On internally corrected and symmetrized kernel estimators
for nonparametric regression
- 187 A. Farcomeni • L. Tardella
Reference Bayesian methods for recapture models with heterogeneity
