

Volume 19
Number 2
August 2010

TEST

INVITED PAPER

- 209 N. Städler • P. Bühlmann • S. van de Geer
 ℓ_1 -penalization for mixture regression models

DISCUSSION

- 257 A. Antoniadis (comment)
259 G. Lugosi (comment)
264 J. Fan • J. Lv (comment)
270 T. Sun • C.-H. Zhang (comment)
276 E. del Barrio (comment)
280 N. Städler • P. Bühlmann • S. van de Geer (rejoinder)

ORIGINAL PAPERS

- 286 C. Croux • M. Fekri • A. Ruiz-Gazen
Fast and robust estimation of the multivariate errors in variables model
- 304 H. Raïssi
Autocorrelation-based tests for vector error correction models with uncorrelated but nonindependent errors
- 325 G. Chattopadhyay • I. Mukhopadhyay
Progressive censoring under inverse sampling for nonparametric multi-sample location problem
- 342 E. Cramer • G. Iliopoulos
Adaptive progressive Type-II censoring
- 359 A. Hall • M. Scotto • J. Cruz
Extremes of integer-valued moving average sequences
- 375 J.E. Chacón • T. Duong
Multivariate plug-in bandwidth selection with unconstrained pilot bandwidth matrices
- 399 E. Gómez-Déniz
Another generalization of the geometric distribution
