Number 2  
August 2011

# TEST

## INVITED PAPER

- 223 C. Genest • J. Nešlehová • J. Ziegel  
**Inference in multivariate Archimedean copula models**

## DISCUSSION

- 257 E.A. Valdez (comment)  
263 P. Embrechts • M. Hofert (comment)  
271 P. Janssen • L. Duchateau (comment)  
276 W. Wang • T. Emura (comment)  
281 J. Segers (comment)  
284 P. Lambert (comment)  
287 H. Tsukahara (comment)  
290 C. Genest • J. Nešlehová • J. Ziegel (rejoinder)

## ORIGINAL PAPERS

- 293 R. Vélaz Ibarrola • T. Prieto-Rumeau  
**De Finetti-type theorems for nonexchangeable 0–1 random variables**
- 311 A. Daouia • L. Gardes • S. Girard • A. Lekina  
**Kernel estimators of extreme level curves**
- 334 A. Goia • E. Salinelli • P. Sarda  
**Exploring the statistical applicability of the Poincaré inequality: a test of normality**
- 353 D. Li • L. Peng • Y. Qi  
**Empirical likelihood confidence intervals for the endpoint of a distribution function**
- 367 G.S. Datta • T. Kubokawa • I. Molina • J.N.K. Rao  
**Estimation of mean squared error of model-based small area estimators**
- 389 F. Comte • V. Genon-Catalot • M. Kessler  
**Multiplicative Kalman filtering**
- 412 J.-B. Monnier  
**Nonparametric regression on the hyper-sphere with uniform design • Needlets-based regression on the hyper-sphere**
