

Statistics & Decisions

Volume 26 · Issue 4 · 2008

<i>T. Kubokawa, H. Tsukuma</i> Minimaxity of the Stein risk-minimization estimator for a normal mean matrix	243
<i>F. Dennert, R. Grübel</i> Estimation of search tree size and approximate counting: A likelihood approach	263
<i>M. Kohler, A. Krzyżak, H. Walk</i> Upper bounds for Bermudan options on Markovian data using nonparametric regression and a reduced number of nested Monte Carlo steps	275
<i>A. N. Shiryaev, A. A. Novikov</i> On a stochastic version of the trading rule “Buy and Hold”	289
<i>S. Kiesel, L. Rüschendorf</i> Characterization of optimal risk allocations for convex risk functionals	303
