

**On the cover**  
**A year after Fukushima, the future for nuclear power is not bright—for reasons of cost as much as safety: leader, page 15. Nuclear power will not go away, but its role may never be more than marginal: see our special report after page 46. Last year's triple disaster—earthquake, tsunami and nuclear meltdown—has shattered Japanese faith in many of the country's institutions, pages 28-30. But it has roused the country's artists, page 82**
