

Geology of the Arid Zone of Almeria

South East Spain

An educational field guide

Geology of the Arid Zone of Almería

South East Spain

An educational field guide

This guide has been produced and financed with the support of the hydrological management project between the Carboneras Desalination Plant and Almanzora-Western Almería Council. In the Natural Park of Cabo de Gata and its area of influence, a grant given by the Southern State Water Company (ACUSUR) and the Regional Ministry of Environment (la Consejería de la Junta de Andalucía), is gratefully acknowledged
