Language policy

For outgoing mobile participants

Our institution is committed to ensure that outgoing participants have the necessary level of linguistic proficiency to carry out the mobility. Any nominee should pass a language test that proves their minimum level of proficiency. Furthermore, the foreign language teachers of our institution will provide the mobile participants pre-departure language instruction (exceptionally, we will hire an external teacher).

For incoming mobile participants

In the case of incoming mobile participants, our institution will organize an intensive language course given by our Spanish language teachers whose achievements will be recorded.
