The floor plan illustrates the layout of the second floor, which includes several key functional areas:

- Laboratory Section (Left):** Features multiple laboratory spaces (LABORATORIO) and associated equipment rooms like refrigerators (REFRIGERADOR) and freezers (FREEZER).
- Storage Area (6.3 CAMARAS):** A large section designated for general storage, containing numerous small rooms or lockers.
- General Storage Area (8.4 AREA DE ALMACEN GENERAL):** Another extensive storage zone, primarily composed of long aisles lined with shelving units.
- Administrative and Support Spaces:** Includes reception desks (RECEPCION), waiting areas (ESPERA), and various office spaces (OFICINA).
- Specialized Medical Rooms:** Such as the X-ray room (SALA RADIOLOGIA) and the ultrasound room (SALA ULTRASONIDO).
- Support Facilities:** Restrooms (W.C.), showers (DUCHA), and a central kitchen area (COCINA).

The plan uses color coding to distinguish between different types of spaces: green for clinical/laboratory areas, yellow for storage, blue for administrative/support, and red for patient care or specialized treatment rooms. Dimensions are provided for many individual rooms and sections.
