### Dossier: Andalucía tardoantigua

6

Las etapas transicionales acaparan la atención de los historiadores, pues en ellas se acelera el tiempo histórico y tienen lugar conflictos y cambios fundamentales. Desde esta perspectiva, si hay una etapa que hoy día concita la atención de los historiadores de la Antigüedad es la conocida como *Spätantike* o Antigüedad tardía. Sin embargo, en Andalucía estos siglos son los grandes desconocidos, ya que el período ha quedado oculto tras los brillos de la Bética romana y el esplendor hispanomusulmán. Pese a que sus principales protagonistas, los visigodos, acapararon la atención hasta no hace mucho, el período ha sido víctima de los prejuicios ideológicos, dando lugar a imágenes deformadas y simplificadoras. En este dossier, coordinado por el Profesor Titular de Historia Antigua de la Universidad de Jaén Pedro Castillo Maldonado, recuperamos la historia de una época tan dinámica como apasionante y compleja.

### Vikingos en las costas de al-Andalus 36

Entre los siglos IX y X las costas andaluzas sufrieron tres grandes ataques vikingos. Ante la crudeza de estos asaltos los gobernantes de al-Andalus no tuvieron más remedio que reforzar su flota y las defensas de sus ciudades.

### Los viajes de Don Quijote 40

40

En el año del cuarto centenario de la muerte de Miguel de Cervantes rescatamos en estas páginas las singulares andanzas impresas de la primera y segunda parte del *Quijote* en las tiendas de libros andaluzas, así como sus diversos itinerarios atlánticos en busca de lectores.

Pedro Rueda Ramírez

### Antonio de Ulloa 44

44

Este científico ilustrado nacido en Sevilla en 1716, participó en la expedición que midió el grado terrestre, fundó el Museo de Historia Natural de Madrid, fue el descubridor del platino, organizó el primer laboratorio metalúrgico de España y creó en Cádiz el Observatorio Astronómico.

**Un antiguo refugio en Sierra Nevada 48**

Tras un trabajo que combina la investigación en varios archivos y la exploración *in situ*, este artículo desvela dónde se levantó el primer refugio para excursionistas de Sierra Nevada.

**Ignacio Zuloaga en Sevilla 54**

En 1892, un indeciso Ignacio Zuloaga viaja a Sevilla para trabajar como pagador de una compañía minera y remediar así su precaria situación económica. Sin embargo, este propósito se truncó rápido.

José Romero Portillo

**Otto Engelhardt 58**

El cónsul alemán en Sevilla tuvo un papel destacado durante el tiempo de los espías en la Gran Guerra. También se opuso al nazismo. Su valentía le pasó factura y fue asesinado en la Guerra Civil.

Carlos Font Gavira

**La murga de Puertatierra 62**

Los comparsistas de Cádiz fueron represaliados, en mayor porcentaje, durante el terror caliente: en los meses que van desde la toma de la ciudad por los golpistas hasta las primeras semanas de 1937.
