

Table of Contents

1	Introduction	11
2	Networks and systems of natural protected areas	13
2.1.	Contributions made by the natural protected areas to the integrity of the ecosystems and to environmental health	13
2.2.	Reference points to assess the state of environmental services	17
2.3.	Contributions made by landscape ecology to the design of networks	19
2.4.	From natural protected areas to systems	21
2.5.	Coming challenges to be met to improve protected natural areas	24
3	Landscape fragmentation as the main threat to the integrity of the operation of the landscape	27
3.1.	Fragmented landscapes: their structure and degrees of alteration	28
3.2.	Main effects of the fragmentation on the operation of natural systems	31
4	The territory's connectivity and ecological corridors	35
4.1.	The preservation of ecological processes in a conservation network	35
4.2.	Permeability of the mosaic	39
4.3.	Ecological corridors	43
	4.3.1. River and stream corridors	44
	4.3.2. Linear corridors	45
4.4.	Stepping stones	48
5	Criteria for the design of conservation networks	49
5.1.	Indicators based on species and ecosystems	50
5.2.	Indicators of landscape structure and function	54
	5.2.1. Surface	55
	5.2.2. Fragmentation	56
	5.2.3. Shape	56
	5.2.4. Heterogeneous	57
	5.2.5. Connectivity	57
	5.2.6. Ecological integrity	58

5.3.	Effect of the spatial scale on the definition of indicators	59
5.3.1.	Effects of the scale on the recognition of linear elements and on the application of landscape connectivity indicators	60
6	Study cases	63
6.1.	The situation in Spain	83
6.2.	The situation in Andalusia	88
6.2.1.	The RENPA Strategy. Towards a systemic management of the Andalusian protected territory	90
6.2.2.	Opportunities for the territorial integration of the Andalusian protected areas. The territorial Organization plans of a regional and sub - regional scope	94
6.2.3.	New potentialities to improve the RENPA's connectivity	95
6.2.4.	Integration of the RENPA into the international conservation networks	100
7	Conclusions and recommendations	105
8	Bibliography	111
	Glossary	121
